Note: For technical support, please contact Technical Support at 1-877-251-6662 and select or go to www.odysseyware.com/support.

Welcome to ODYSSEYWARE Online Administrator!

ODYSSEYWARE sent you the URL, probably in the format “<https://yourschoolname.owschools.com>.” As soon as you go to that site, you see a screen similar to the one below.

ODYSSEYWARE has three modes, or applications; Administrator, Teacher and Student. The **Login** page for each looks the same. The **Login ID** and **Password** used direct you to the correct mode.

Below the **Login** box, you see three links, **About**, **Help**, and **Terms of Use**. These links are on every page in both the Administrator and Teacher modes. Let’s quickly walk through each of those links, starting with **About**.

About

The **About** page is where you find the active ODYSSEYWARE **Version** number. You can also find this information in the **Copyright** bar at the bottom of every page in the application. This page also gives you a link to contact our school setup team and access to the Teacher and Student Overviews of OW.

Help

This link is where you find the Admin, Teacher, and Student Quick Start and User Guides. You can also find links to our Technical Support database of frequently asked questions, as well as email and telephone contact information for Tech Support.

Terms of Use

Clicking this link allows you to access a copy of the “ODYSSEYWARE End User License”.

Once you login, you see these same three links in a bar across the bottom of every screen in the application, along with one additional link, **Feedback**.

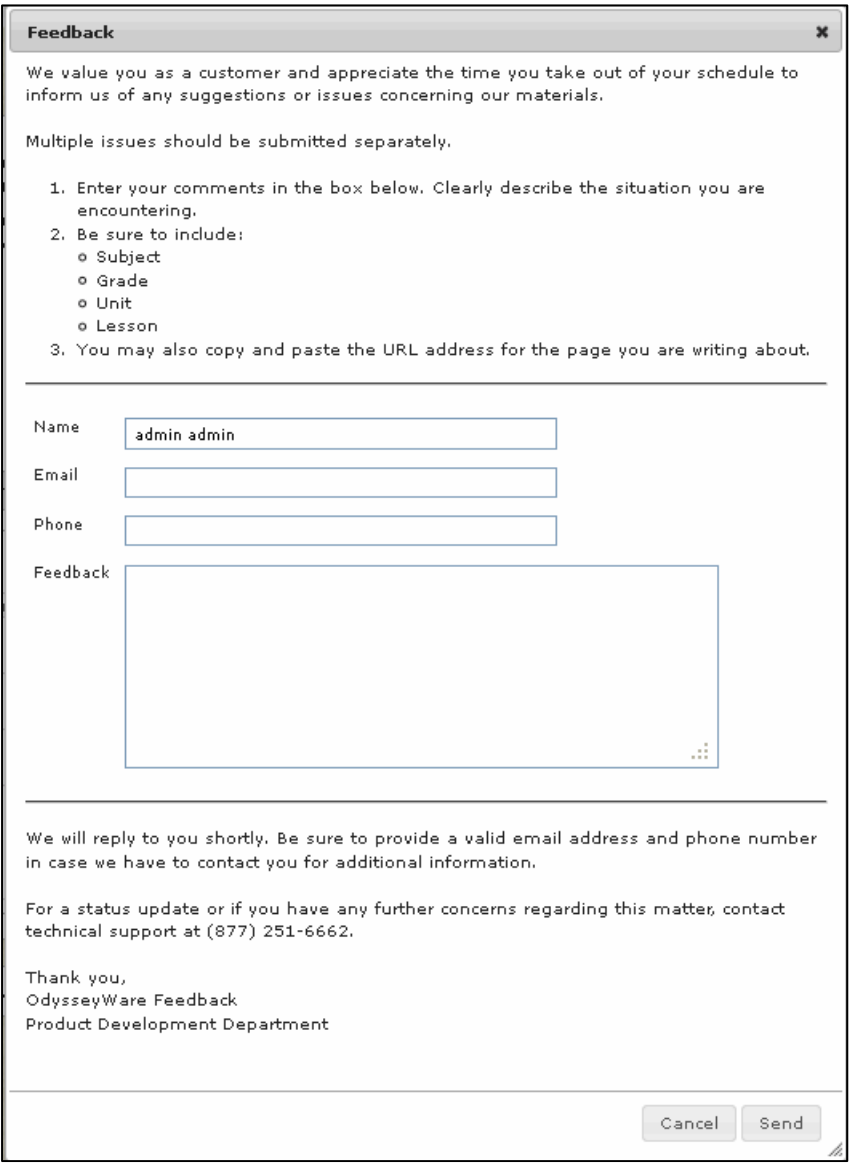

NOTE: Only STUDENTS use seat licenses. Admins, teachers, and parents do not utilize a license.

Feedback

The **Feedback** page enables you to send ODYSSEYWARE suggestions, or issues you may encounter in the product.

When you click the **Feedback** link, a window like the one below opens.

<p>The top section includes instructions about completing the form and an example of a completed form. Please complete the form at the bottom of the page.</p>	 <p>The screenshot shows a window titled "Feedback" with a close button (X) in the top right corner. The window contains the following text and form elements:</p> <p>We value you as a customer and appreciate the time you take out of your schedule to inform us of any suggestions or issues concerning our materials.</p> <p>Multiple issues should be submitted separately.</p> <ol style="list-style-type: none">1. Enter your comments in the box below. Clearly describe the situation you are encountering.2. Be sure to include:<ul style="list-style-type: none">o Subjecto Gradeo Unito Lesson3. You may also copy and paste the URL address for the page you are writing about. <hr/> <p>Name: <input type="text" value="admin admin"/></p> <p>Email: <input type="text"/></p> <p>Phone: <input type="text"/></p> <p>Feedback: <input type="text"/></p> <hr/> <p>We will reply to you shortly. Be sure to provide a valid email address and phone number in case we have to contact you for additional information.</p> <p>For a status update or if you have any further concerns regarding this matter, contact technical support at (877) 251-6662.</p> <p>Thank you, OdysseyWare Feedback Product Development Department</p> <p>At the bottom right of the window are two buttons: "Cancel" and "Send".</p>
<p>Name: automatically filled in for you. You can type over this if you need to change it.</p>	
<p>Email: the address we use to send you the issue number and respond to any questions you have regarding the issue.</p>	
<p>Phone: A number where we can contact you about the issue, if necessary.</p>	
<p>Feedback: Please use this space to give us as much information about the issue, suggestion, or problem as you are able. If this is an issue you are experiencing while in the application, we <u>need</u>: the subject, grade, unit and lesson, (copy and paste the URL address into this area) along with detailed information describing the issue you are experiencing.</p>	
<p>Click Send to submit the form to our development team or Cancel to discard the form.</p>	

Home

After you login as the Administrator, the first page you see is your **Home** page. Notice the box across the bottom of the page? This is where you find the links we just discussed on all subsequent pages in Administrator (and Teacher).

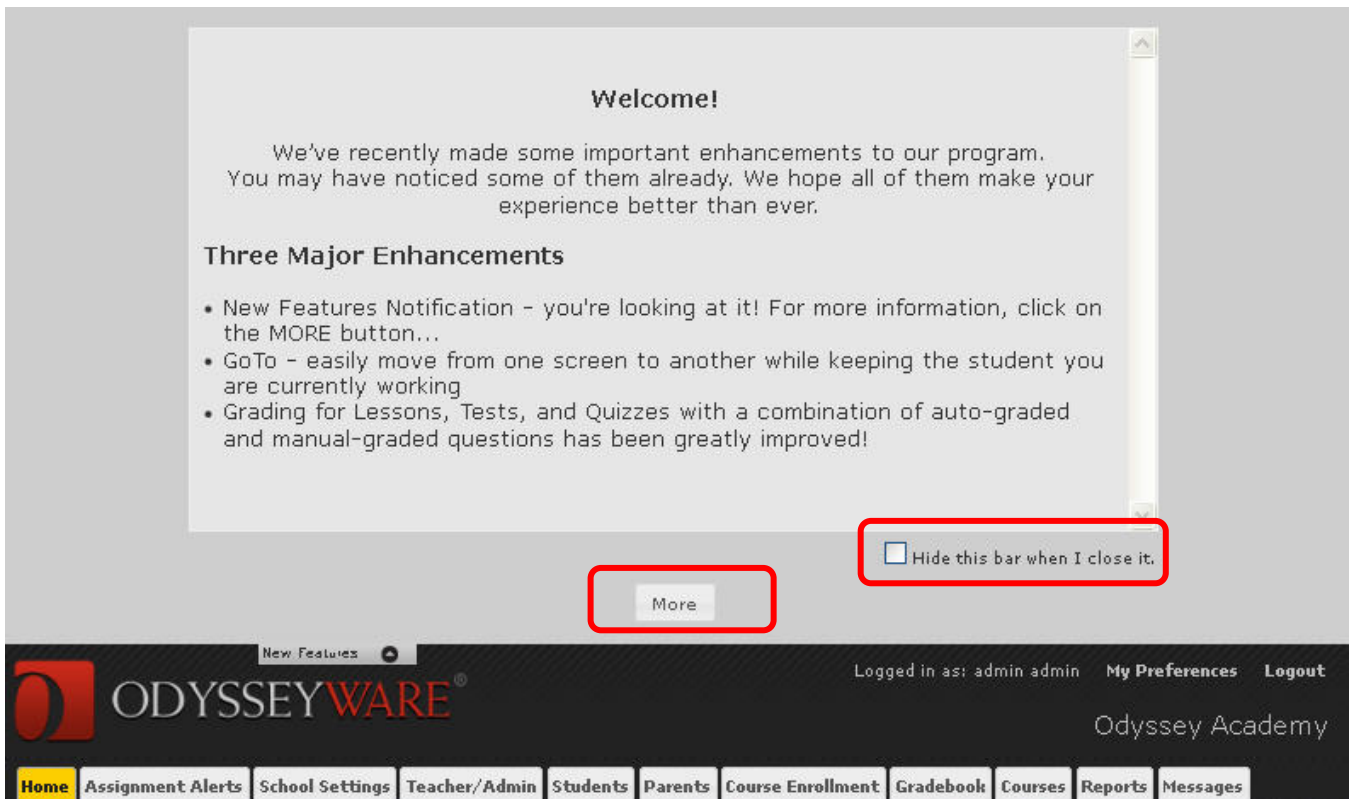

Copyright ©2010, Glynlyon, Inc. All rights reserved. Server: qa32 [About](#) [Help](#) [Terms of Use](#) [Feedback](#) Version: 2.2.1

Let's take a look at the top banner of your **Home** page. This banner remains consistent, no matter what page you are on in the application. You can always see the name of your school and your login name. Additionally, there are two links on the right-hand side of the banner:

Above the ODYSSEYWARE logo, you see a gray **New Features** button. Clicking this expands the window to display a list of new features and a link (the **More** button), where you can see previous updates and changes to the application. If you do not want to see **New Features** button on your screen, click the button once to expand the window once and click the checkbox beside "**Hide this bar when I close it**". You can always see the **New Features** and **Updates** again by clicking the **Version** number in the lower right-hand corner of your screen.

The **New Features** button reappears each time ODYSSEYWARE has a new release.

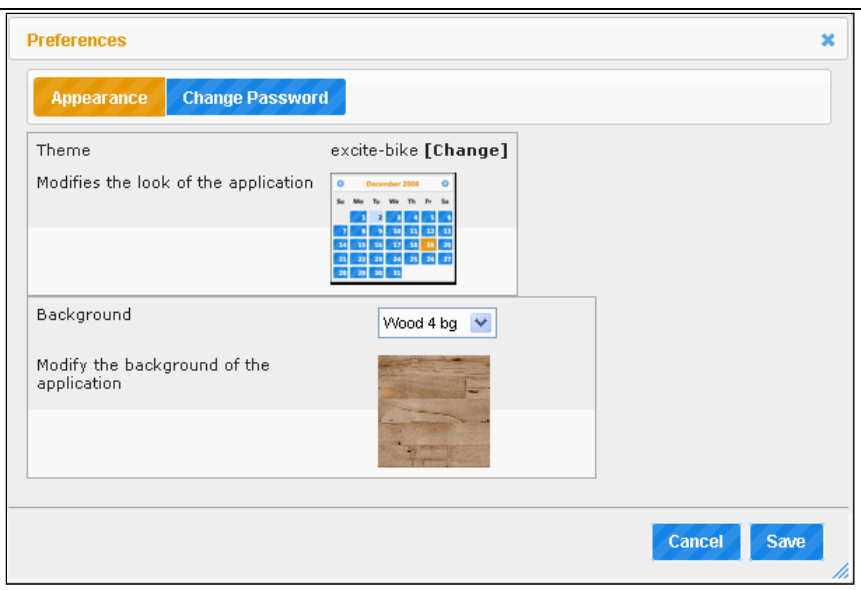

ODYSSEYWARE

Preferences

Appearance tab – If you permit, teachers and/or students may click this link to modify their **Theme** or **Background**.

Change Password tab – Click this tab to change your password. (You cannot change the admin password.)

Click the **Save** button to retain the changes you made. Click **Cancel** to return to your **Home** page and discard any modifications.

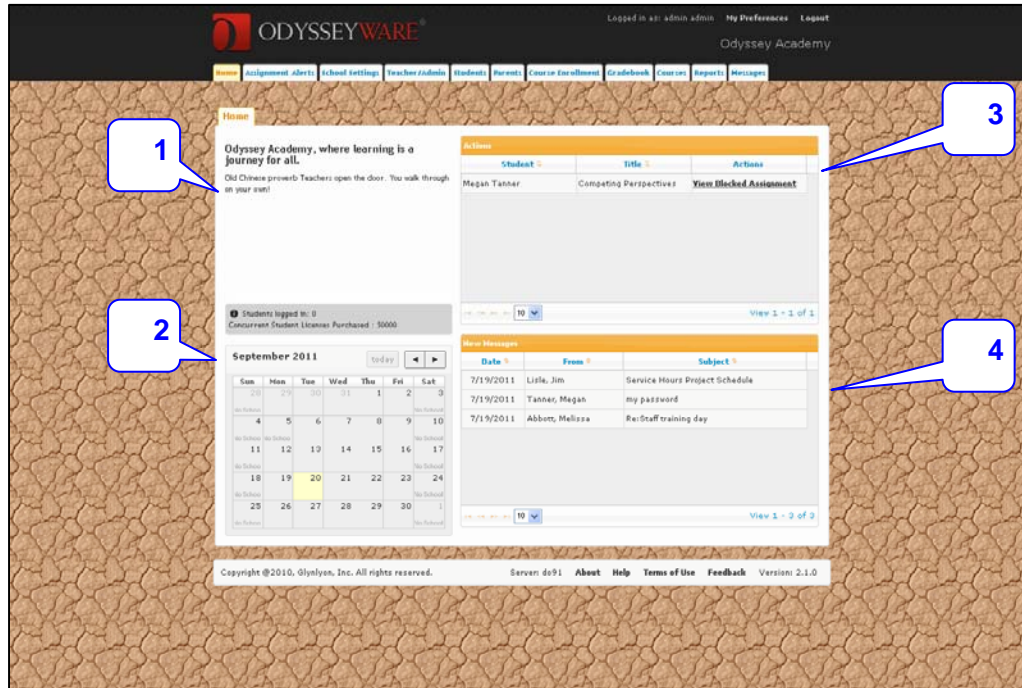

Logout – allows you to easily logout from anywhere in the application.

Another area that remains constant across all of the pages in Administrator mode is the row of tabs across the top of the page, enabling easy access to all functionality within the application. This guide walks you through each tab and the corresponding functions and features available when you click each one.

Let's begin on the far left with the **Home** tab.

Your **Home** page has four panels:

- **Message of the Day** – think of this as your announcements bulletin board. You, as administrator control what displays in this panel on the **Home** page of everyone who has a login to your installation. You can change this message using the **School Settings > Messages & Displays** tabs.
- **Calendar** – your school calendar displays in the panel in the bottom left quadrant of the **Home** page. Right above the calendar, you see a line letting you know how many students are logged in at the given time.
- **Actions** – displays assignments needing to be graded by the teacher and messages sent when a student uses the **Help** button on an assignment problem. Shows the student name, the assignment type and title of the assignment needing to be graded; or the date, student name and subject of the message if a help request. Click the linked message to go directly to the question to be graded. Remember to check the question numbers for an asterisk (*). This is a reminder that question needs manual grading.
 Clicking a **Help** request takes you to the first help request in the assignment.
 Clicking an **Unlock** request immediately unlocks a quiz or test the student left, without submitting it as complete, and then tried to reenter within a two minute window.
 When the student attempts to reenter the quiz or test, he or she is presented a pop-up box asking if they want to submit the score they currently have on the quiz or test, or if they want the teacher to unlock it so they can complete the quiz or test. The choice to ask you to unlock it generates this action request type.
 Clicking an **Access Blocked Assignment** request takes you to the failed assignment.
 If you are not assigned a course, this area will be blank.
- **New Messages** – shows you a listing for each new, unread message in your OW **Inbox**. You see the date each message was sent, who sent it, and the subject line of the message. Click a new message to immediately open the message as a read-only message.

Assignment Alerts

The **Assignment Alert** tab displays a page with a list of all student assignments with a status of “graded”, or “assigned”. Overdue assignments also display. **Assignments** requiring manual grading (have a status of “Completed”) appear on both your **Home** tab in the **Actions** block and on the **Action Required** page under the **Gradebook** tab.

Home Assignment Alerts School Settings Teacher/Admin Students Parents Course Enrollment Gradebook Courses Reports Messages												
Show Progress for		past 5 days	and for		my students	Graded Re-Assigned Overdue Blocked/Failed						
Teacher	Student	Course	Unit	Title	Type	Campus	Activity	Date	Status	Attempts	Score	
admin	admin	Megan Tanner	Earth Scienc	1	4. Competing Perspe	LESSON	A1		09/20 8:37AM	Graded	1/MAX	78.9%
admin	admin	Megan Tanner	Earth Scienc	1	2. Introduction to E	LESSON	A1		09/20 8:29AM	Graded	1/MAX	85.7%
admin	admin	Maria Baraga	English I (2C	2	20. Review	LESSON	A1		09/20 1:02AM	Not Started	0	0%

You can choose to view a list for just today, or up to the past seven days. Just use the **Show Progress for** drop-down list to make your selection.

Use the drop-down list to the right of **Show Progress for** drop-down list to filter the display to show all students or only students assigned to you.

There are 12 columns across the top of the **Assignment Alert** page. You can sort on any column with the arrowheads beside the column header.

For example, you can sort by **Teacher**, **Student**, **Course**, or **Assignment Title**. Currently the list is sorted by **Teacher** in descending order. I know this because the downward facing arrowhead to the right of **Teacher** is darker than the other arrowheads.

You also see four symbols in the **Activity** column (and in the upper right corner of the page):

-  tells you the assignment is graded
-  lets you know the assignment is past due
-  indicates the assignment has been reassigned to the student
-  indicates the student was not able to achieve a passing grade on the assignment in the maximum number of attempts allowed.

You can sort and search by these activity symbols and the **Status** as well.

Using the blank textbox below the column headers, I can also narrow the list to display a specific teacher, student, course, or assignment title by entering the first 3 or more characters of the name I want in the textbox below the column heading and selecting from the list displayed.

Let's take a look at the columns starting on the left.

- Teacher Name
- Student Name
- Course Name
- Unit number
- Assignment Title
- Assignment Type
- Campus ID
- Activity (Graded, Reassigned or Overdue)
- Date the assignment was submitted as complete
- Status of the assignment - Assigned, Graded, Not Started (you may see this on overdue assignments). Assignments with these three status codes are the only ones you will see displayed on this page.
- Attempts
- Score – assignment score

You can adjust the width of the columns by hovering your mouse over the line to the right of each

column header until it looks like this: . When your cursor looks like this, click and holding your mouse button down, drag the column to the width you prefer.

You can click any assignment title to go directly to that assignment.

You can also change the status of any assignment in the list by clicking the drop-down arrow beside the status displayed. The choice you see may differ depending on the current status of the assignment.

If an assignment shows the status as “Assigned” you can either mark it “Complete” or “Skipped”.

Assignments with a status of “Graded” can only be reassigned. Do this by changing the status to “Assigned”.

Assignments showing a status of “Not Started” may be changed to “Assigned” or “Skipped”.

Any assignment you change to “Skipped” drops off your list when you refresh your screen.

All assignments over five days old automatically drop off the list.

School Settings

When you click the **School Settings** tab you see a series of six sub-tabs; Messages & Display, Thresholds & Weighting, Permissions, Archive, Terms, and Calendar. (The text in gray to the right-hand side of each School Setup screen is explanatory.)

Messages & Displays

Enter the **Name** of your school – this is the name that appears in the banner across the top of each page in Administrator, Teacher, and Student modes. This field has most likely already been filled in for you by ODYSSEYWARE.

Enter your **Welcome Message** – this can be any message you like up to 255 characters.

Enter the **Message of the Day**. Think of this as your “announcements” board. Again, you have a maximum of 255 characters.

Click **Save** when you are finished with this page.

Home | Assignment Alerts | **School Settings** | Teacher/Admin | Students | Parents | Course Enrollment | Gradebook | Courses | Reports | Messages

Messages & Display | Thresholds & Weighting | Permissions | Archive | Terms | Calendar

Name The Name of the School

Welcome Message The Welcome Message appears on the user's home page. This message can be no more than 255 characters.

Message of the Day The Message of the Day appears on the user's home page below the Welcome Message. This message can be no more than 255 characters.

Thresholds & Weighting

There are several thresholds in the application, **CRx Pass Threshold**, **Lesson Pass Threshold**, **Quiz Pass Threshold**, and **Test Pass Threshold**. Setting the **Lesson Pass Threshold** to a number greater than zero (0) enables “Focused Learning”. This means whenever a student submits a lesson with a score below the **Pass Threshold**, the lesson is automatically reassigned to the student to do again. Whenever this happens the **Attempts** counter is increased by one. (See 42 for a picture of this counter.) You can set a maximum number of times the lesson is reassigned. For each of the **Lesson**, **Quiz** and **Test Pass Thresholds**, there are two associated options, the maximum number of attempts and the option to block progress if the student fails on the last allowed attempt.

Test Weight	<input type="text" value="25"/>	Input a number from 0-100. All four weights need to equal 100.								
<input type="button" value="Save"/>										

Thresholds

CRx Pass Threshold

CRx Pass Threshold applies only to the pre-test for each unit of a course assigned in CRx mode. CRx (or prescriptive credit recovery mode) is a way for you to assign a course in which students are presented with a pre-test for each unit in the course. If the student achieves a score at or above the **CRx Pass Threshold**, the other assignments in that unit are skipped and the student is assigned the pre-test for the next unit in that course. As long as the student achieves the **CRx Pass Threshold**, the assignments are skipped and the next pre-test is assigned. The score achieved on the pre-test is the unit score.

In the **CRx Pass Threshold** field, enter the percentage students must achieve on pre-tests to test out of a unit in a CRx mode assigned course. (The default is set at 70.) Use whole number only, no % sign.

If the student does not achieve a score at or above the **CRx Pass Threshold**, the assignments in the associated unit are assigned to the student. There are several points to be aware of when this happens:

1. The **Lesson, Quiz and Test Pass Thresholds** are used for all assignments in the unit.
2. The score for the pre-test is discarded and the unit score is the cumulative of all lessons, quizzes and the post-test for the unit.

Lesson, Quiz and Test Pass Thresholds

Remember you can change all threshold percentages and attempt numbers. Change them to meet your school/district requirements. Use only whole numbers. No % sign is necessary.

Lessons, Quizzes, Tests:

The description and instructions below apply to lessons, quizzes and tests.

In the **Pass Threshold** textbox, enter a percentage students must achieve on the assignment to continue to the next assignment. (Default is set at 70).

Enter the maximum number of times you want to allow students to try to successfully complete a assignment in the associated **Max Attempts** textbox. (Default is set to 3 for lessons and 1 for quizzes and tests.)

You have the option to automatically block student progress in the course, if the student does not achieve a score at or above the **Pass Threshold** within the maximum number of attempts you set. Click to place a checkmark in the appropriate **Block Progress** box to enable this feature.

Weighting

There are four assignment types in ODYSSEYWARE, lessons, projects, quizzes and tests. This tab allows you to set a weight for how the grades for each assignment type are factored into the unit and overall course grade. The defaults are set to 25 for each assignment type.

Enter a whole number into the box to the right of each assignment weight you want to change. The total of the four weights must equal 100.

Click **Save** when you are finished.

Permissions

Messages & Display	Thresholds & Weighting	Permissions	Archive	Terms	Calendar
Global Permissions

Change Passwords	<input checked="" type="checkbox"/>				Allow students to change their own passwords.
	<input type="button" value="Save"/>				

Global Permissions

The default settings for theme and background are the ones you selected when talking to OW School Setup.

1. **Theme Selection:** If you click to place a checkmark in the **Theme Selection** box, students and teachers are allowed to choose their own application theme.
Default is set to not allow this.
2. **Default Theme:** Click [**Change**] then use the **Select** a theme drop-down menu to see the other options. Click the theme you want to use.
If you did NOT put a checkmark in the **Theme Selection** box above, the theme you select is the one everyone in your school will use.
Allow Background: A checkmark in this box enables users to select one of the other backgrounds provided. If this is not allowed, everyone in the school sees the background set in the **Default Background**. Default is set to not allow this.
3. **Default Background:** Use this drop-down menu to select the default background you want for your school. If you do not allow backgrounds to be changed (see item 3 above), this is the background every teacher and student in the school sees. If you do allow backgrounds to be changed, this is the background all teachers and students see when they first login.
4. **Allow Messaging:** A checkmark in this box enables students to send messages to their teachers and teachers to send messages to students and the Principal. This can be changed for individual students by editing the individual student.
If you choose to remove the checkmark on this option, NO teachers or students will be able to send or receive messages using the application messaging system and this option is then disabled on the edit student page. The **Messages** tab is grayed out for teachers and students when they are logged into the application.
Default is set to allow messaging.

Grading Permissions

Blank Essay Notification alerts the teacher when essay questions are submitted with no answer. The default is to have this selected (checked).

Teacher Permissions

There are only two setting for teachers, **Change Password** and **Change Thresholds and Weights:** The first allows teachers to change their own password. The second permits the teacher to change assignment weighting percentages, pass thresholds, maximum attempts, and block progress in courses for students. The default setting is not allow these options. Click the box beside the options you want to enable placing a checkmark in the box.

Student Permissions

There are five options you can set at the school level. Each can be edited at the student level if you allow them at the school level. Any of the options you do not allow are disabled on the edit student page. The default setting for all of these options is set to not allow them. To enable these features, click the box next to each option you want to enable, placing a checkmark in that box.

1. **Student Review Test Quiz:** Allows student to review completed and graded quizzes and tests.
2. **Student Answer Key:** Enables students to see the answer key in completed assignments only.
3. **Enable Grading View:** Permits students who have not achieved the **Pass Threshold** in a lesson to see which problems they answered correctly, which ones are partially correct, and which are incorrect. They CANNOT see the answer key.

Administrator User Guide

- 4. Randomize Questions:** Displays the questions in student lessons, quizzes and tests in a random order. If the student is required to do a lesson, quiz or test more than once, it is very unlikely the questions will display in the same order. If two students, seated beside each other are working on the same assignment, it is HIGHLY improbable they will see the questions in the same order. Teachers always see questions in the same, original order. Once a student has successfully completed an assignment, the questions are always displayed in the original order.
- 5. Change Passwords:** Allows students to change their own password.
Click **Save** when you are finished.

Archive

As administrator, you can set an independent grace period for archived students and enrollments. When a student or enrollment is placed in **Archive** state, the student or enrollment is moved to a **Pending Archive** status until the grace period expires. During the grace period, the **Archive** state can be reversed, with all information related to the student or enrollment returned to the original status. Once the grace period ends, and the student or enrollment moves from **Pending Archive** to **Archive** status, the information cannot be reversed.

Messages & Display	Thresholds & Weighting	Permissions	Archive	Terms	Calendar
User Grace Period	<input type="text" value="1"/>	day(s)	The user's records will be archived after the grace period		
Enrollment Grace Period	<input type="text" value="1"/>	day(s)	The enrollment will be archived after the grace period		
	<input type="button" value="Save"/>				

There are two ways to access archived students, you can go to the **Students** tab, click the **Status** drop-down and select **Archived** or go to the **Course Enrollment** tab, click the **Student Status** drop-down, select **Archived**, and then click the **Search** button.

To find archived teachers, go to the **Teacher/Admin** tab, click the **Status** drop-down, and select **Archived**.

To view archived enrollments, go to the **Course Enrollment** tab, click the **Enrollment Status** drop-down, select **Archived**, and then click the **Search** button.

Terms

As administrator, you can create multiple terms; full year terms, semester terms, future terms. You decide if a term is enrollable and which term is the default. The default term is simply the one that appears when you, or a teacher, add an enrollment. At the time a student is enrolled in a class, you or the teacher can select from all enrollable terms. You must have at least one term to enroll students.

Messages & Display Thresholds & Weighting Permissions Archive **Terms** Calendar

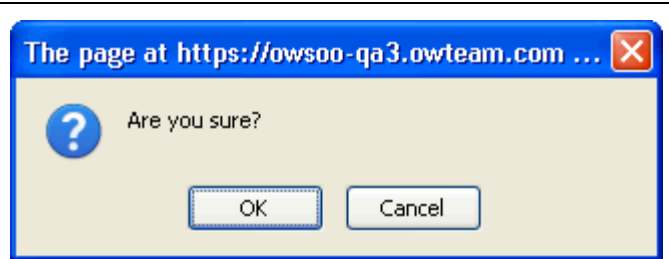

Coursework schedule changes for active student enrollments will be visible day after any changes are made to existing terms

Name	Begin	End	Working Days	Enrollable	Default	Actions
2011-2012	02/14/2012	10/02/2012	191	<input checked="" type="checkbox"/>	<input checked="" type="radio"/>	Cannot Delete Edit
Spring 2012	02/14/2012	06/20/2012	80	<input checked="" type="checkbox"/>	<input type="radio"/>	Delete Edit
<input type="text"/>	<input type="text"/>	<input type="text"/>		<input type="checkbox"/>	<input type="radio"/>	<input type="button" value="Add Term"/>

To add a term:

1. Enter the **Name** of the term in the text box at the bottom of the **Name** column. The combination of term name, begin and end date must be unique, if you have multiple terms.
2. Click the text box at the bottom of the **Begin** column to display a calendar. The current month displays. Use the small arrows to the right and left of the month and year to navigate to a previous or future month. When you reach the month with the date you want as the starting date for this term, click the date to populate the **Begin** text box.
3. Click the text box at the bottom of the **End** column to display the current month calendar. Navigate and select the **End** date as described in Step 2.
4. If you want to immediately enroll students in this term, click the checkbox at the bottom of the **Enrollable** column.
5. Click **Add Term**.
6. The new term now appears in the list of terms. If you want this to be the default term, click the circle in the **Default** column of the corresponding row. You must select one term as the default.

To delete a term, simply click the **Delete** link. A confirmation box opens to ask if you are sure. Click **OK** to delete the term, click **Cancel** to leave it. If you have students enrolled in a term, you CANNOT delete that term. Remember, you CANNOT delete a term if there are students currently enrolled in that term.

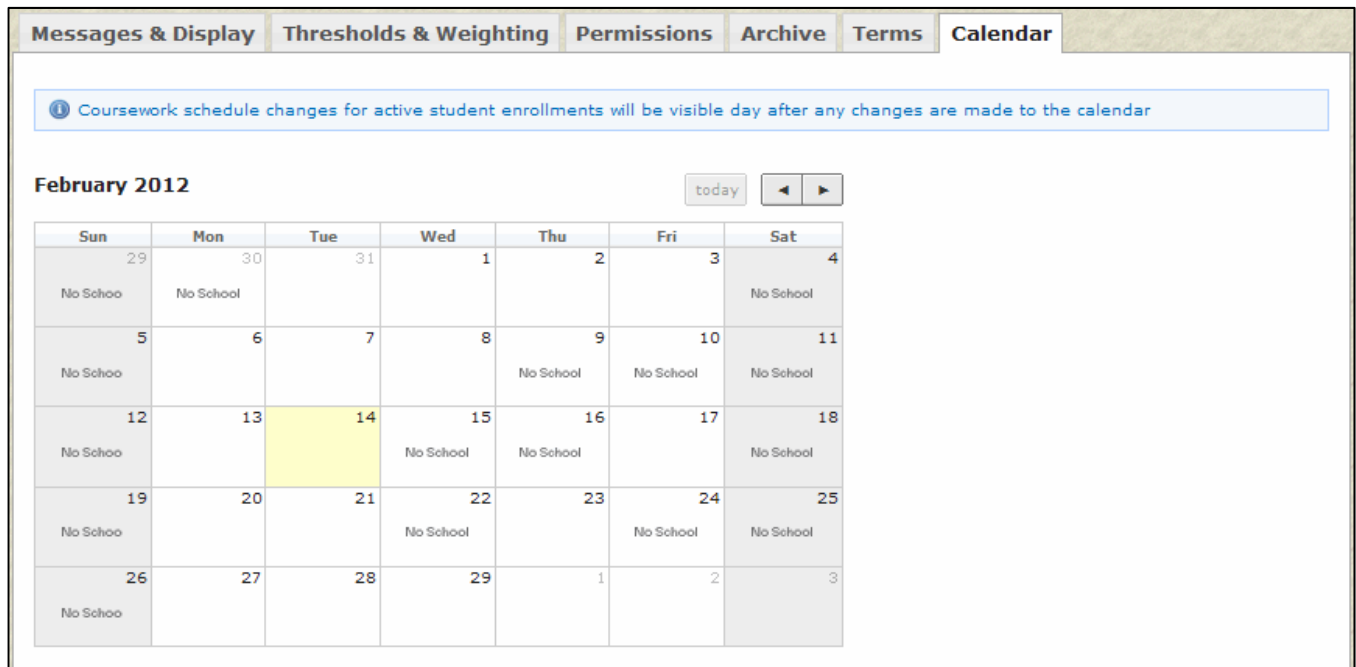

To change the name of the term, begin or end date of the term, click the **Edit** link in the corresponding row of the **Actions** column. To change the **Name**, simply type the new name over the existing name. Click the date you want to change and navigate to the new date as described in Step 2 above. Click **Save** when you are finished.

NOTE: Any changes to term dates require 24 hours before they are reflected across the system.

Calendar

Click any date on the calendar to change it from a school day to a non-school day or the reverse. Be sure to click the box below the date. Use the small arrows above Saturday on the calendar to navigate to another month. To return to the current month, click the **today** button to the left of the arrows. "No School" displays on all days you designated as non-school days. All weekdays (Monday through Friday) are considered school days. Click each day you want to select as a holiday making it a non-school day.

19 No School	20	21	22 No School	23	24 No School	25 No School
26 No School	27	28	29	1	2	3

Teacher / Admin

This page displays the list of teachers. You can display active teachers only (the default), teachers on hold, archived teachers, or all (the combination of active, on-hold, and archived teachers). Use the drop-down menu in the **Status** column to select on-hold, archived, or all teachers. We will walk through all of the features on this tab over the next few pages.

Just a note before we begin. There are three Teacher/Admin roles: teacher, super teacher, and admin; and several different permissions you can assign each teacher: student maintenance (edit student profiles), add new students, assign courses, create or edit custom courses, change password, change thresholds and weights. Before you add a new teacher, you need to understand these roles and decide which role and what permissions each teacher should have.

TEACHER/ADMIN ROLES

Teacher	Super Teacher	Admin
<p>Sees only students enrolled in classes he or she is assigned if the "My Students" filter option is selected. If "All Students" is used, teachers also see any students they added or enrolled.</p> <p>Can perform only the functions allowed by the admin (student maintenance, add students, assign courses, create/edit courses) for students enrolled in assigned classes.</p>	<p>Sees ALL enrolled students, if the "All Students" filter option is selected. If the "My Students" option is applied, the Super Teacher sees only students enrolled in classes assigned to the Super Teacher.</p> <p>Can perform only the functions allowed by the admin (student maintenance, add students, assign courses, create/edit courses) for ALL enrolled students.</p>	<p>Sees ALL enrolled students, if the "All Students" filter option is selected. If the "My Students" option is applied, the Admin sees only students enrolled in classes assigned to the Admin.</p> <p>Can perform all functions for ALL students.</p>

Page 1 of 1 10 View 1 - 8 of 8

Disable / Enable Teacher Logins

Notice the two buttons to the far right-hand side of the **Teacher/Admin** page, **Disable Login** and **Enable Login**. You can easily disable the login id of any teacher by clicking the checkbox in the far left-hand side of the row with the teacher name whose login you want to disable. Place a checkmark in the box to select the teacher, and then click the **Disable Login** button. Conversely, you can reverse the process by selecting the teacher and then clicking the **Enable Login** button.

When you disable an **On Hold** or **Archived** teacher's login, you are prompted to reassign all enrollments assigned to the teacher. All of the notifications are also moved from the now disabled teacher login to the newly assigned teacher.

You can also choose to disable the teacher login while you are creating the teacher. Simply click the **Login Enabled** checkbox at the top of the **Create Teacher/Admin** page to remove the checkmark.

Create Teacher / Admin

Let's start by creating a teacher, and then we'll look at the rest of this page.

To add a new teacher or admin to your application, click the **Create Teacher/Admin** button on the top row. A **Create Teacher/Admin** form opens. (See example on next page.)

Login Enabled: Default is checked (enabled). Click to remove checkmark and disable teacher login.

User Status: Default is **Active**. Click the arrow to the right of “Active” to select “On Hold” or “Archived”.

First Name: Type the first name of the teacher. (see next page for list of accepted special characters.)

Last Name: Type the last name of the teacher.

User Name: Type the user name assigned to this teacher. This field cannot be edited or changed.

Password: Type in the password. It must be a minimum of 6 characters. Alphanumeric and some special characters are allowed.

Repeat Password: Type the same password again to verify it.

Teacher/Admin: Select the role this person is to have for your installation. Default is **Teacher**. Use the drop-down arrow to select Super Teacher or Admin.

Student Maintenance: Click the box to permit this teacher to edit students.

Add Students: Click the box to permit this teacher to add new students.

Assign Courses: Click the box to permit this teacher to enroll students in new courses.

Create/Edit Courses: Click the box to permit this teacher to create and edit custom courses.

Change Password: Click this box to allow teacher to change their own password.

The screenshot shows a 'Create Teacher/Admin' window with the following settings:

- Login Enabled:**
- User Status:** Active
- First Name:** [Empty text box]
- Last Name:** [Empty text box]
- Username:** [Empty text box]
- Password:** [Empty text box]
- Repeat Password:** [Empty text box]
- Teacher/Admin:** Teacher
- Student Maintenance:** (Allows teachers to edit students.)
- Add Students:** (Allows teachers to add students.)
- Assign Courses:** (Allow teachers to assign or unassign courses to students.)
- Create/Edit Courses:** (Allow teachers to create and edit custom courses.)
- Change Password:** (Allow teachers to change their own passwords.)
- Change Thresholds and Weights:** (Allow teachers to change assignment type grade weights and pass thresholds.)
- Allow Background:** (Allows users to add background images to their application experience.)
- Theme Selection:** (Allow Teachers to choose their own)

Buttons: Cancel, Save

Change Thresholds and Weights: Click this box to allow teacher to change the pass threshold, CRx pass threshold, or assignment-type grade weights.

Allow Background: Click here to allow teacher to select the background of their choice.

Theme Selection: If you permitted theme selection at the school level, the associated box is checked enabling this teacher to choose their own application theme.

Save / Cancel: Be sure to click the **Save** button when you are finished. Click **Cancel** to delete what you have entered and return to the **Teacher/Admin** tab.

Search Capability

Notice the row immediately below the column headings (Online, Active, etc.). You see blank text boxes on this row in the **User Name**, **First Name**, and **Last Name** columns. These are search filter boxes. Start typing in any of these boxes and once you have entered at least three letters, the system begins filtering the list for you to meet your search criteria. This functionality is available on several other pages in the application as well. When you see the blank text boxes immediately below the column headers, you can use them to filter your list.

Teacher / Admin Tab

There are seven columns across the **Teacher / Admin** page and a selection checkbox. Use the selection checkbox to perform the same action to multiple teachers at once. You can also use this checkbox to enable or disable teacher logins.

<input type="checkbox"/>	Online	Login Enabled	Status	First Name	Last Name	Username	Type	Controls
--------------------------	--------	---------------	--------	------------	-----------	----------	------	----------

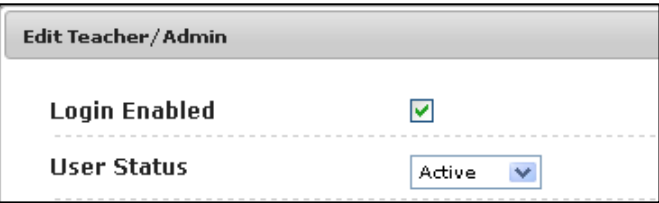

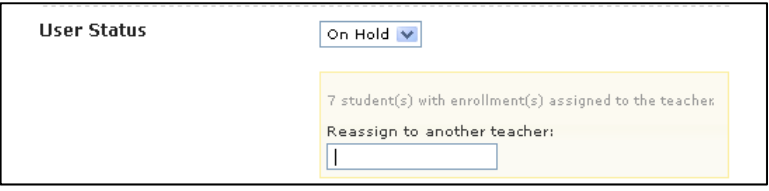

- Selection Checkbox:** use this to identify multiple teachers you want to perform a single action for. Click the checkbox at the top to select all.
- Online:** indicator tells you if the teacher is logged onto the application or not. If the indicator on the row with the teacher's name is highlighted, or darker, this tells you this teacher is logged on the system. To log this person off the application, simply click the icon on the row corresponding to the person you want to log off.
- Login Enabled:** lets you sort to show whose login id is enabled or disabled.
- Status:** this column allows you to filter the list of displayed teachers, Use the drop-down menu to select, **Active**, **On Hold**, **Archived**, or **All**. The default is **Active**.
- First Name:** Displays the first name of the teacher
- Last Name:** Displays the last name of the teacher
- User Name:** the login name for this person.
- Type:** the role you assigned when you created (added) the person to the system.
- Controls:** There are two controls (or links) available for you in this column; **Enrollments**, and **Edit**.
Enrollments displays a list of all students enrolled in courses assigned to this teacher.
Edit allows you to make changes to the fields described in the table on the previous page.

Edit Teacher / Admin

When you click this link, the **Edit Teacher/Admin** page for the selected teacher or admin opens. There are a couple of differences between this page and the one we walked through when creating a new teacher on the **Create Teacher/Admin** form.

<p>You cannot change the User Name. Once it is saved, it cannot be edited.</p>	
<p>The Password does not display. To change the password, click [change] and enter the New Password and Repeat Password in the textboxes that display.</p>	
<p>At the top of the form are the Login Enabled and User Status.</p>	
<p>If you place this teacher in "Archive" status, you see a message just below the status if this teacher has students enrolled in courses they are assigned. You can assign a new teacher for these courses, which moves all pending actions to the new teacher.</p>	
<p>You also have the option to leave the teacher active for now and reassign all of his/her students under the Course Enrollment tab, and then returning to change the teacher's status. As always, when you make a change, don't forget to click Save.</p>	

Students Tab

This page displays the list of students. You can display active students only (the default), students on hold, archived students or all students. You can also display the list by students whose login id is enabled, disabled, or all students. Use the drop-down menu in the **Active** column to select the status of students. There is a filter just below the **Registration** tab, **View** allows you to see only students enrolled in classes assigned to you or all students as described in the table on page 19.

Just as we did with Teacher/Admin, let's start by creating a student, and then we'll look at the rest of this page. If you are adding more than a few students, you can download and use the template to enter multiple new students at once. We'll do one student so you can see what information is necessary.

Create Student

To add a single new student to your application, click the **Create Student** button on the top row. The **Create Student** window appears. (See next page.)

Login Enabled: Default is enabled. Click the checkbox to remove the checkmark and prevent student ability to login.

User Status: Default is **Active**. Click the arrow to the right of “Active” to select “On Hold” or “Archived”.

First Name: Type in student’s first name.

Last Name: Type in student’s last name.

User Name: Type in the user name for this student. This field cannot be edited or changed.

Password: Type in the student password. It must be a minimum of 6 characters. Alphanumeric and some special characters are allowed.

Repeat Password: Enter the same password again to verify it.

Default Term: Select the term the student is to have automatically display when a student is enrolled in a course. Students can be assigned a custom term. Click the circle beside “Custom” and select the **Start** and **End** dates. You can choose the term when you enroll students in courses. Click the circle beside “Choose at enrollment.” Default term is set to school default term set during school setup.

Personalize Threshold Settings: Click this box to place a checkmark to change the **Pass Threshold** and/or **CRx Pass Threshold** settings for this student. Default is the student inherits the school-level settings.

CRx Pass Threshold: See page 13 of this document for a description of this function. The school CRx pass threshold is the default. To change it to a different setting for this student only, you must first check **Personalize Threshold Settings** and then type over the displayed number.

Lesson Pass Threshold: The school pass threshold is the default. If you want to change it to a different setting for this student only, click the box in **Personalize Threshold Settings** and type over the displayed number.

Max Lesson Attempts: Enter the maximum number of times you want a student to attempt to complete lessons (achieve the lesson pass threshold) before having the either continue in the subject or be blocked from continuing in this subject.

Block Lesson Progress: Click to place a checkmark in this box, if you want to prevent the student from continuing in the subject once the student has failed to achieve the lesson pass threshold score after completing the maximum number of attempts.

Notice the scroll bar to the far right of the **Create Student** page on the previous page. The lower half of the page is shown below.

Quiz Pass Threshold, Max Quiz Attempts, Block Quiz Progress: These three fields are approached in exactly the same way as the **Lesson Pass Threshold, Max Lesson Attempts, and Block Lesson Progress**. The difference is that they apply only to quizzes.

Test Pass Threshold, Max Test Attempts, Block Test Progress:

These three fields are approached in exactly the same way as the **Lesson Pass Threshold, Max Lesson Attempts, and Block Lesson Progress**. The difference is that they apply only to tests.

Personalize Weights: Click this box to permit changing the assignment-type weight percentages. See pages 11-12 of this document for a description of this function. If this permission is not allowed at the school level, this box is not enabled.

Lesson Weight, Project Weight, Quiz Weight, Test Weight: Enter the percentage for each assignment type. All four must total 100. The **Personalize Weight** box must be checked to enable this.

Student ID: Optional field - Alphanumeric and special characters are allowed.

Campus ID: Optional field - Alphanumeric and special characters are allowed.

The screenshot shows the 'Create Student' form with the following fields and values:

- Test Pass Threshold: 70
- Max Test Attempts: 1
- Block Test Progress:
- Personalize Weights:
- Lesson Weight: 30
- Project Weight: 20
- Quiz Weight: 20
- Test Weight: 30
- Student ID: [Empty]
- Campus ID: [Empty]
- Student Review Test Quiz: (Allow students to review graded Tests and Quizzes.)
- Student Answer Key: (Allow students to see the answer key for completed assignments.)
- Enable Grading View: (Allow students who have not reached the pass threshold to view performance (correct/incorrect))
- Change Passwords: (Allow students to change their own passwords.)
- Randomize Questions: Disabled (Randomize the order of questions for student lessons, quizzes, and tests.)

Buttons: Cancel, Save

Student Review Test Quiz: Check this box to permit student to review completed and graded quizzes and tests.

Student Answer Key: See page 15 above for a description of this function. The school setting is the default. To a different setting for this student only, click the box. If this is not allowed at the school level, you cannot change it at the student level.

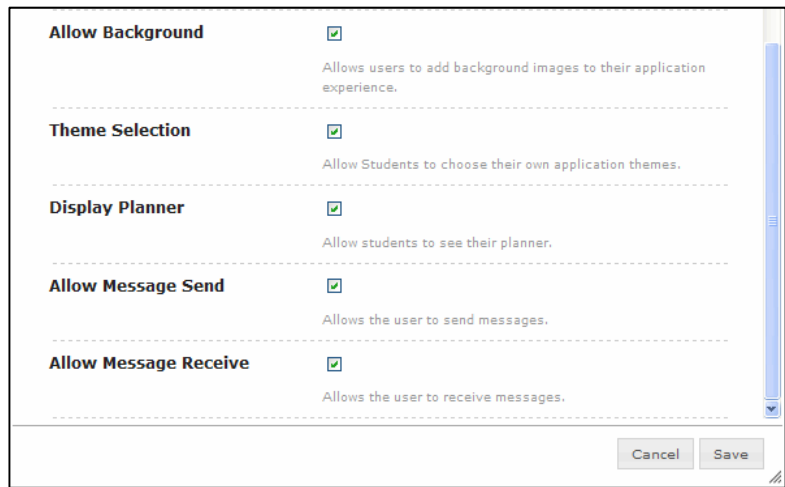

Enable Grading View: Click this box to allow students who have not achieved the pass threshold to view which questions they have correct or incorrect. See description in **Student Answer Key**. If this is not allowed at the school level, you cannot select it at the student level.

Change Passwords: See description in Student Answer Key. If this is not allowed at the school level, you cannot enable it at the student level.

Randomize Questions: See description in Student Answer Key. If this is not allowed at the school level, you cannot permit it at the student level.

Allow Background: If you permitted backgrounds at the school level, the associated box is checked enabling this student to add background images. Click the box to restrict this student only from using this feature.

Theme Selection: If you permitted theme selection at the school level, the associated box is checked enabling this student to choose their own application theme. Click the box to restrict this student only from using this feature.

Allow Background	<input checked="" type="checkbox"/>	Allows users to add background images to their application experience.
Theme Selection	<input checked="" type="checkbox"/>	Allow Students to choose their own application themes.
Display Planner	<input checked="" type="checkbox"/>	Allow students to see their planner.
Allow Message Send	<input checked="" type="checkbox"/>	Allows the user to send messages.
Allow Message Receive	<input checked="" type="checkbox"/>	Allows the user to receive messages.

Buttons: Cancel, Save

Display Planner: Selecting this option displays a 4 square **Planner** tab for students, “Overdue”, “Schoolwork”, “Upcoming” and “Overall Progress”. Students can access their daily schoolwork from either the **Planner** tab or the **Courses** tab. If you do not choose this option, students see only see a **Courses** tab. No due dates are displayed for students without the **Planner** option; hence, they have no overdue assignments. All assignments are accessed using the course tree displayed on the left-hand side of this **Courses** tab page.

Allow Message Send: If you selected **Allow Messaging** at the school level, this option is enabled. Click the box to restrict the student from sending messages within the application.

Allow Message Receive: If you selected **Allow Messaging** at the school level, this option is enabled. Click the box to restrict the student from receiving messages within the application.

Save / Cancel: Be sure to click the **Save** button when you are finished. Click **Cancel** to delete what you have entered and return to the **Registration** tab.

Import Students

To register multiple students at once, use the **Import Student** feature. All students automatically inherit school level settings and permissions. You can change them for each student during the **Preview and Edit** process. (See **Step 7** on the next page.)

1. Click the **Import Student** button on the **Student Registration** tab.
2. Click the **Download Template** button on the **Import Student** pop-up window. MS Excel is the default application for the **Import Students** file.
3. Click **Open with** and **OK** to use the default. Four fields are required:
 - Student first name
 - Student last name
 - User Name
 - Password – you will get an error message if the password is less than 6 characters.

NOTE: **Student ID** and **Campus ID** are optional fields. Use **Student ID** to enter any student identification number. If your installation has multiple campuses, it is a very good idea to designate an identifier for each and enter it in the **Campus ID** field. You can use any alpha or numeric character in these fields.

4. Enter the information for each student. Save the file to a location from which you can upload.
5. Click the **Browse** button and locate the template file you just created and saved.

6. Click the **Next** button.

7. The **Preview and Edit** window opens. Duplicate **Usernames** appear in red with a message at the top of the student list alerting you to this. Click each field you want to change, one at a time. A textbox opens allowing you to type over the exiting entry. Be sure to click in another field after you make a change to verify your changes. You get an error message if the password is less than 6 characters long.

8. Make changes to settings at the top of the page. Any changes made here apply to all imported students.

NOTE: If you make changes to any settings while on this page, those fields are now customized for these students. If you later change a school setting that you customized on this page, it will NOT be applied to these students. You must change each individual student whose settings were customized.

9. Click the checkbox in the first column to select students on the page to import.
10. Click **Submit** when you are finished.

Your students should now appear in the student list on the **Registration** tab.

Page 1 of 8 | 10 | View 1 - 10 of 78

You may have noticed a drop-down menu on the far left side of the box immediately below the **Registration** tab. This allows you and teachers to filter the list of students to either “all students” enrolled or “my students”. If you select “my students”, only students assigned to courses where you are assigned as the teacher appear.

Just as on the **Teacher/Admin** tab, you notice the empty text boxes just below the column headings for **Student ID**, **Campus ID**, **First Name**, **Last Name**, and **Username**. Simply start typing in any of these boxes to filter the student list. You can also sort the list by who is Online. Simply click the header “Online” to display the sort arrow.

There are ten columns across the **Registration** page:

<input type="checkbox"/>	Online	Login Enabled	Status	Student ID	Campus ID	First Name	Last Name	Username	Controls
	All	Active							

- Selection Column:** Allows you to perform the same action to multiple students in one step. Click the checkbox in the row for each student you want included. A checkmark indicates the student is selected.
- Online:** Indicator tells you if the student is logged onto the application or not. If the indicator on the row with the student’s name is highlighted/darker this tells you the student is logged on the system. To log this student off the application, freeing up a license, simply click the icon on the row corresponding to the student you want to log off.

Administrator User Guide

3. **Login Enabled:** Lets you sort the student list by students whose logins are enabled, disabled or see all students displayed.
4. **Status:** This column allows you to filter the list of displayed students, Use the drop-down menu to select, "All", "Active", "On Hold", or "Archived". The default is active.
5. **Student ID:** Student ID assigned to this student by your school. Optional field
6. **Campus ID:** The campus ID assigned to this student by your school. This is an optional field to use if your school chooses.
7. **First Name:** Displays the first name of the student
8. **Last Name:** Displays the last name of the student
9. **Username:** Displays the student's login username
10. **Controls:** Links to additional functionality for the student. See the "Controls" paragraph below.

Disable Login/Enable Login

There are two buttons on the right side of this tab, **Disable Login** and **Enable Login**. If you want to prevent or permit student login:

1. Click the checkbox in the far left column of the same row as the student name
2. Click the appropriate button (**Disable Login** or **Enable Login**).

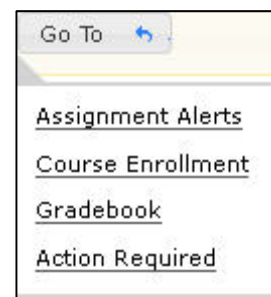

To change the status of multiple students, repeat **Step 1** for all students you wish to change, then go to **Step 2**.

Controls

Additionally, there are two buttons in the **Controls** column:

1. **Edit**
2. **Go To**

When you click the **Go To** button, a menu, like the one to the right displays. You can go directly to the **Assignment Alerts**, **Course Enrollment**, **Gradebook**, or **Action Required** pages related to the student from here.

The easiest way to enroll a student in a course is click **Course Enrollments** on this menu. Alternately, you can click the **Course Enrollment** tab and search for the student. (See **Course Enrollment** on the next page.)

The fastest way to access grading tasks, or see tasks related directly to a single student is to use the links from this menu. You can also click the associated tabs for the items and search for a student.

Clicking **Edit** opens the **Edit Student** page for this student, which displays all of the student identification information and settings for this student as they are currently saved in the system. From this page, you can make changes to this student's settings as described in the tables on pages 23-25. The **Edit Student** page is the only place you can change a student's status to **On Hold** or **Archive**.

On the bottom of the tab you see the page number and a drop-down box with 10 displayed, you can use the drop-down arrow to choose to display more students (20 or 30) per page. The "View" message at the far right of this row lets you know which students you are viewing based on the either the total number of students or the total number of students that meet your filter specifications.

Parents

The **Parents** tab enables you to create a parent account and associate the appropriate student(s) to that parent account. The parent or guardian can then access the Parent application to see how the student is progressing.

To setup the parent account:

1. Click the **Parents** tab.
2. Click the **Create Parent Profile** to set up a new parent/guardian login.
3. Enter the **First Name** of the parent or guardian.
4. Enter the **Last Name** of the parent or guardian.
5. Enter the **Login ID** (the email address of the parent or guardian).
6. Start typing the name of the student in the **Add Student** textbox. A filtered list appears. Select the name of the student to associate with this parent or guardian.
7. Click **Add**.

The parent receives an email with the following message:

Dear [First Name Last Name],

Welcome to Odysseyware Parent Access, and congratulations on signing up your child for what promises to be a beneficial learning experience.

Parent/Guardian involvement in a child's education is a vital element in creating successful school environment. We want you to know how your children are progressing with their schoolwork as well.

That's why we designed Odysseyware with the Parent Access capability. Now you can easily retrieve all essential information regarding grades, progress, and assignments about each of your children.

Here's how to use Odysseyware Parent Access:

1. Go to the Odysseyware site
[Link to Change Password](#)
2. Next, you will be asked to create your password. The password must be at least 6 characters, with no special characters included.
3. Log into the system using your username (your email address) and your new password.
4. The first time you sign on, you will be asked to accept the license agreement. If you wish to read it before signing off on it, it can be accessed at anytime from the login screen and printed.
5. Once you have accepted the license agreement, you will be asked to verify the names of your students. Upon verification, you will have full access to their information.

Thank you for using the Parent Access for Odysseyware!

Yours truly,
(School Admin)

Once the parent clicks the link, your school's ODYSSEYWARE website opens to a login screen requiring the parent/guardian to create a password. Once that is done, they are asked to accept the **EULA**. After they accept the EULA, they are asked to confirm that the students associated with their account are the correct ones. As soon as they click **Yes** on the **Confirm Students** box, they see their **Home** page.

Until the parent does this, you will see a **Send Confirmation** link in the **Controls** column on the **Parents** tab for the newly created profile. Once the parent/guardian logs in, you no longer see this link in the **Controls** column.

The two links remaining in the **Controls** column are **Edit** and **Reset Password**. When you click the **Reset Password** link, an email is sent to the parent/guardian with the website link allowing them to create a new password.

The **Edit** link displays the parent profile. You can enable or disable the login id, change the status of a parent/guardian, add or remove students associated to this profile, or you can change the **First** or **Last Name**. At this time, you CANNOT change the **Login ID**. You need to archive it and create a new profile if the parent or guardian changes their email address.

On the **Parents** tab, you can sort and filter the list just as you can on the **Students** and **Teachers** tabs.

Add Enrollment

To add a course enrollment for a student from this page, click the **Add Enrollment** button. The student's name is already displayed.

Click the **Subject** drop-down box and select the subject to assign.

Click the **Course** drop-down box and choose the specific course you want to assign.

Click the **Status** drop-down box and select the status for the course. Default is **Active**.

Click the **Teacher** drop-down box and select the teacher for this course.

Select the term to use for this course. The school default term displays automatically. Click the arrow to the right of the displayed term to see other available school-level terms. If you do not see the term you want, click the circle beside **Student** or **Custom** as appropriate to display those available terms.

To assign this course in prescriptive recovery mode, click the box to the left of **CRx Mode**.

To block all tests and/or quizzes in this course for this student, click the checkbox beside **Block Tests** and/or **Block Quizzes**.

To personalize any of the pass thresholds, click the **Personalize Thresholds** box and enter the new percentage in the appropriate **Pass Threshold** box.

To personalize the **CRx Pass Threshold**, enter the percent (number only) in the textbox.

After each of the **Lesson Pass Threshold**, **Quiz Pass Threshold**, and **Test Pass Threshold** fields, you see the option to determine the maximum number of times a student may attempt to successfully achieve the pass threshold before they are prevented from continuing in the course. Enter the maximum number of attempts for the selected assignment type in this course in the associated **Max Attempts** field.

The screenshot shows the 'Add Enrollment' dialog box with the following details:

- Student:** Andrew Ackers
- Subject:** -Select a subject-
- Course:** -Select a course-
- Status:** Active
- Teacher:** -Select a teacher-
- Term:** School: Future Term (06/06/2011 - 12/08/2012); Student; Custom
- Enrollment Settings:**
 - CRx Mode:
 - Block Tests:
 - Block Quizzes:
 - Personalize Thresholds:
 - CRx Pass Threshold: 70 (Percentage required to pass the pretest for a unit when in credit recovery (CRx) mode.)
 - Lesson Pass Threshold: 70
 - Max Lesson Attempts: 3
 - Block Lesson Progress:
 - Quiz Pass Threshold: 70
 - Max Quiz Attempts: 1

Buttons: Cancel, Add Enrollment

After the **Lesson Max Attempts, Quiz Max Attempts, and Test Max Attempts**, is an associated **Block Progress** field. Click the checkbox for the selected assignment type to prevent the student from continuing in this course, if the maximum attempts have been used without achieving the associated pass threshold.

To personalize the assignment weighting percentage for lessons, projects, quizzes or tests, click the **Personalize Weights** box and then change the percentage weights in any of the **Lesson Weight, Project Weight, Quiz Weight, and/or Test Weight** boxes. Remember, the total of these four boxes must equal 100.

Click **Add Enrollment** when you have selected the options you want or click **Cancel** to discard this enrollment.

After you click **Add Enrollment**, a confirmation window pops up, click **OK**.

Once you have enrolled the student in a course, it appears below the column headers described on page 32.

Reschedule		Activate		Place On Hold		Archive		Add Enrollment	
<input type="checkbox"/>	Subject	Course	Status	Reason	Teacher	Term			Actions
<input type="checkbox"/>	Science	Earth Science (2011)	Active		Thomas, Donna	Future Term (06/06/2011 - 12/08/2012)			Edit

Reschedule

To reschedule a single course for a student:

1. Click the checkbox in the far left-hand column beside the course you want to reschedule.
2. Click the **Reschedule** button.
3. Select the **Term** on the **Reschedule** window and then click the **Reschedule** button, or click **Cancel** to return to the **Enrollments** tab without making any changes.
4. Click **Ok** on the **Success** box that appears when you click the **Reschedule** button.

To reschedule multiple courses for a single student:

1. Click the checkbox in the first column beside the courses you want to reschedule.

Amato, Claire (Username: amato, User Status: Active) Go To ↻

Reschedule Activate Place On Hold Archive Add Enrollment

<input type="checkbox"/>	Subject	Course	Status	Reason	Teacher	Term	Actions
<input type="checkbox"/>	Elective	High School Health (2011)	Active		Hazen, Tyler	2011-2012 (07/18/2011 - 05/24/2012)	Edit
<input type="checkbox"/>	Elective	Civil War (2011)	Active		Abbott, Melissa	2011-2012 (07/18/2011 - 05/24/2012)	Edit

2. Click the **Reschedule** button at the top of the course list
3. Select the **Term** on the **Reschedule** window and then click the **Reschedule** button, or click **Cancel** to return to the **Enrollments** tab without making any changes
4. Click **Ok** on the **Success** box that appears when you click the **Reschedule** button.

NOTE: Rescheduling a course requires 24 hours for changes to appear.

Place On Hold

Place on Hold permits you to temporarily prevent the student from working in this course.

1. Click the checkbox in the first column beside the course you want to put in this status.
2. Click the **Place On Hold** button at the top of the course list.

<input type="checkbox"/>	Subject	Course	Status	Reason	Teacher	Term	Actions
<input type="checkbox"/>	Elective	Vietnam Era (2011)	Active		Abbott, Melissa	2011-2012 (07/18/2011 - 05/24/2012)	Edit

3. Click the **Place On Hold** button on the confirmation window to remove the course for this student or click **Cancel** to leave the enrollment as is.
4. Click **Ok** on the **Success** box that appears when you click the **Inactivate** button.

NOTE: Depending on the search criteria you have set, the course may disappear from the course list. To view it, make sure you have the **Enrollment Status** in the **Search** box set to **All**. To remove the hold, you need to change the status of the course. Do this by repeating the steps above, but click the **Activate** button instead of the **Place on Hold** button in **Step 3**.

To place multiple courses on hold for a student, you have two choices. If you are placing all courses on hold, consider either putting the student in **Place On Hold** status or **Disabling** the student's login. Otherwise, click the checkbox in the first column beside the courses you want to **Place on Hold** for the student and follow Steps 2-4 above.

NOTE: If you place a student in **On Hold** or **Archive** status, all of their enrollments (courses) are also changed to reflect that same status.

Archive

The **Archive** button allows you to archive this course for a student. To archive a course:

1. Click the checkbox in the first column beside the courses you want to **Archive** for the student.

<input type="checkbox"/>		<input type="checkbox"/>		<input type="checkbox"/>		<input type="checkbox"/>		<input type="checkbox"/>	
Reschedule		Activate		Place On Hold		Archive		Add Enrollment	
<input type="checkbox"/>	Subject	Course	Status	Reason	Teacher	Term	Actions		
<input type="checkbox"/>	English Language Arts	English II (2011)	Active		Jordan, John	Future Term (06/06/2011 - 12/08/2012)	Edit		

2. Click the **Archive** button at the top of the course list.
3. Using the **Reason** drop-down list, select why you are archiving the course:
 - a. It is **Complete**
 - b. It is **Incomplete** (and will not be completed)
 - c. It is being **Dropped**
 - d. It is **Void** (perhaps the wrong course was assigned)
4. Click the **Archive** button to complete the action or click the **Cancel** button to leave the enrollment as is.
5. Click **Ok** on the **Success** box that appears when you click the **Archive** button.

NOTE: Remember, there is a grace period after you archive an enrollment or a student. This period can range from 1 to 100 days, depending on what you, as the administrator set in the **School Settings / Archive**. The default is set to 28 days. During this grace period, you can reinstate the enrollment or the student. After the grace period, you can view or pull reports on the data, but no work can be done and you cannot view the problem level of an assignment.

To **Archive** student enrollment from multiple courses, click the checkboxes beside the courses to archive, and follow Steps 2-5 above.

Edit

Let's take a look at the **Edit** link in the **Actions** column. Clicking this link opens an **Enrollment Settings** pop-up window. Before we look at this page, there are a couple of points to note.

Notice, the **Status** column after each course name. Depending on the **Enrollment Status** selected in the **Search** box at the top of the window, you see either **All** courses, **Active** courses, **On Hold** courses, or **Archived** courses.

Amato, Claire (Username: amato, User Status: Active)								<input type="button" value="Go To"/>	
<input type="checkbox"/>		<input type="checkbox"/>		<input type="checkbox"/>		<input type="checkbox"/>		<input type="checkbox"/>	
Reschedule		Activate		Place On Hold		Archive		Add Enrollment	
<input type="checkbox"/>	Subject	Course	Status	Reason	Teacher	Term	Actions		
<input type="checkbox"/>	Elective	High School Health (2011)	Active		Hazen, Tyler	2011-2012 (07/18/2011 - 05/24/2012)	Edit		
<input type="checkbox"/>	Elective	Civil War (2011)	Active		Abbott, Melissa	2011-2012 (07/18/2011 - 05/24/2012)	Edit		

Here you can:

Click the drop-down arrow to the right of the current teacher's name to change the **Teacher** of record. (This moves all pending action required from the current teacher to the new teacher.)

Change the **Status** by clicking the drop-down arrow in that box. If the course is in Archived status, you see a note to the side advising you the number of days left in the "grace period", before the course may no longer have the status changed back to **On Hold** or **Active**. (The length of the grace period is set in **School Settings > Archive**.)

Change the options you set for **CRx Mode**, **Block Tests** or **Block Quizzes**. If the checkbox beside the option has a checkmark, it is enabled. Click to remove the checkmark. No checkmark? Click the box to add one. Grayed-out? This option is not available for this course.

To change any of the **Pass Threshold** settings, you must first click the **Personalize Thresholds** box to enable the other two. Enter the new percentage for the setting(s) you wish to change. (Archived courses cannot be modified.)

After the **Lesson Pass Threshold**, **Quiz Pass Threshold**, and **Test Pass Threshold**, is an associated **Max Attempts** field. Enter the maximum number of attempts for the selected assignment type in this course.

The lower half of the **Enrollment Settings** screen appears on the next page.

After the **Lesson Max Attempts**, **Quiz Max Attempts**, and **Test Max Attempts**, is an associated **Block Progress** field. Click the checkbox for the selected assignment type to prevent the student from continuing in this course, if the maximum attempts have been used without achieving the associated pass threshold.

Change the assignment-type weights by first clicking **Personalize Weights** to enable the **Lesson Weight**, **Project Weight**, **Quiz Weight**, and **Test Weight** text boxes. Next enter the weighting into these boxes, making sure the four boxes total 100.

Click **Save Enrollment** to retain the changes you made or click **Cancel** to discard them.

Click **Ok** on the **Success** box that appears when you click the **Save Enrollment** button.

Quiz Pass Threshold	70
Max Quiz Attempts	1
Block Quiz Progress	<input type="checkbox"/>
Test Pass Threshold	70
Max Test Attempts	1
Block Test Progress	<input type="checkbox"/>
Personalize Weights	<input type="checkbox"/>
Lesson Weight	15
Project Weight	25
Quiz Weight	25
Test Weight	35

To the right of the student's name, above the **Add Enrollment** button, you see the **Go To** button. Just like on the **Student** tab, the **Go To** button displays a list of pages linked to this student. Click any of the links to go directly to the **Assignment Alerts**, **Course Enrollment**, **Gradebook**, or **Action Required** page for this student.

- Go To
- Assignment Alerts
- Course Enrollment
- Gradebook
- Action Required

Course Enrollment Filter/Search Function

If you choose to use the **Course Enrollment** tab, the box at the top of the **Enrollments** tab page is a **SEARCH** box, NOT where you actually enroll a student in a course. Use this feature to filter your course or student list.

<input checked="" type="radio"/> View by student	Student Status	Active	Student	Andrew Ackers	<input checked="" type="radio"/> All Students
<input type="radio"/> View by course	Enrollment Status	Active	Teacher	-Select a teacher-	<input type="radio"/> All Enrolled Students
			Subject	-Select a subject-	<input type="radio"/> All Non-Enrolled Students
			Course	-Select a course-	<input type="radio"/> All for Time-frame:
					Future Term (06/06/2)
<input type="button" value="Search"/>					

You have the choice of displaying the filtered list by student or by course. To see a list of all students enrolled in a specific course, click **View by course**. Each course displays with all students enrolled in that course listed below the course name.

Civil War (2011) Go To

Reschedule Activate Place On Hold Archive Add Enrollment

<input type="checkbox"/>	Student Name	Subject	Course	Status	Reason	Teacher	Term	Actions
<input type="checkbox"/>	Neely, Casandra (Username: cneely, User Status: Active)	Elective	Civil War (2011)	Active		Abbott, Melissa	2011-2012 (07/18/2011 - 05/24/2012)	Edit
<input type="checkbox"/>	Amato, Claire (Username: amato, User Status: Active)	Elective	Civil War (2011)	Active		Abbott, Melissa	2011-2012 (07/18/2011 - 05/24/2012)	Edit

Alternately, you can choose to view the list by student, where you see each student's name with the list of courses they are enrolled in below. Click the circle beside **View by student**.

Baraga, Maria (Username: mbaraga, User Status: Active) Go To

Reschedule Activate Place On Hold Archive Add Enrollment

<input type="checkbox"/>	Subject	Course	Status	Reason	Teacher	Term	Actions
<input type="checkbox"/>	English Language Arts	English I (2011)	Active		admin, admin	2011-2012 (07/18/2011 - 05/24/2012)	Edit
<input type="checkbox"/>	Elective	Personal Financial Literacy (2011)	Active		admin, admin	2011-2012 (07/18/2011 - 05/24/2012)	Edit

You can also filter the list to see only the enrollment information for one student, by typing the name of a single student into the **Student** textbox. (As you type, a list of students whose name begins with those letters appears.) You can continue typing or select from the displayed list. The same functionality works for **Teacher**.

If you only want to see who is enrolled in a specific subject or course, use the drop-down menus beside **Subject** and/or **Course** to make your selection.

You can also narrow the list displayed by choosing only enrolled or non-enrolled students or by selecting a specific term. Just click the circle beside your choice. Once you make your filtering choice(s), be sure to click **Search** to see the list appear below the **Filter/Search** box.

The buttons and links in the displayed lists work as described on the previous pages no matter what filter or search you use.

Gradebook

There are two tabs in your **Gradebook**:

- **Grading** – enables you to keep track of how your students are progressing through their assigned course(s).
- **Action Required** – permits you to directly access any assignment needing your attention with a single click.

We'll walk through the features and functions of both pages, beginning with the **Grading** page.

A few points about grading first:

- Students and teachers see the current score of assignments with manually graded problems (assignments in the “completed” status).
- If essay type questions are left blank, they are automatically graded zero.
- If the application determines the student has no chance of achieving a passing score, even if all manually graded questions receive a 100%, the lesson is automatically reassigned to the student.
- The assignment is not sent to the teacher for grading until either the student has achieved the pass threshold or the maximum number of attempts is reached.
- If the student leaves all essay questions blank, the teacher receives a “Blank Essay Notification” instead of a request for Manual Grading.

Grading

The box at the top of the **Grading** tab page is a **SEARCH** box. Use this feature to filter your course or student list. You can then choose to narrow your list by selecting only one student, only one teacher, a single subject, a single course within a subject, student or enrollment status, or some combination of these choices. (You must choose a **Subject** before you can choose a single **Course**.) Additionally, you can choose to view a selected term or identify a specific range of dates (**Begin** and **End**).

The screenshot shows the 'Grading' search filter interface. It features two tabs: 'Grading' (selected) and 'Action Required'. Under the 'Grading' tab, there are two radio buttons: 'View by student' (selected) and 'View by course'. Below these are several dropdown menus: 'Student Status' (Active), 'Enrollment Status' (Active), 'Student' (-Select a student-), 'Teacher' (-Select a teacher-), 'Subject' (-Select a subject-), and 'Course' (-Select a course-). To the right, there are two radio buttons: 'All Time-frames' (selected) and 'Future Term (06/0t)'. Below these are two input fields for 'Begin' and 'End' dates. A 'Search' button is located at the bottom center of the filter box.

You have the choice of displaying the filtered list by student or by course. To see a list of all students enrolled in a specific course, click **View by course**. Each course displays in alphabetic order with all students enrolled in that course listed below the course name. In the example below, I selected one subject and one course. However you choose to view information on this page, you see a **Go To** button to the right of the student or course name. This allows you to go directly to the associated **Assignment Alerts**, **Students**, **Course Enrollment**, or **Action Required** page for the student or course.

In addition to the student name, you see the date the student started the course and the date they are to be finished with all course work. There is a bar chart to quickly see student progress through the coursework. Progress percentage includes assignments in both the completed and graded status. Finally the current score for all completed work in the course is displayed.

Essentials of Business (2011)						
Student Name	Enrollment Status	Start	End	Progress	Score	Go To
+ Neely, Casandra (Active)	Active	8/16/2011	5/24/2012	10%	79.5	
+ Carter, Zoe (Active)	Active	7/13/2011	5/27/2011	10%	83.8	
+ Gonzales, Carlos (Active)	Active	8/16/2011	5/24/2012	5%	98	
+ Isley, Ryan (Active)	Active	8/16/2011	5/24/2012	15%	89.5	
+ Dent, Julie (Active)	Active	8/16/2011	5/24/2012	7%	89.3	
+ Zahner, Suzanna (Active)	Active	8/16/2011	5/24/2012	17%	80.7	

Notice the **+** in the first column. Click this to expand a list of all unit titles for this course below a student's name. You see the title of each course, the **Start** date of the course, the date it is to be completed (**End**), a **Progress** bar and percentage complete. The far right column displays the student's current composite score for this entire unit.

You can skip an entire unit that has not been started. To skip an entire unit, click to place a checkmark in the unit to be skipped. All assignments in this unit show a status of "Skipped", when the unit is expanded. (See second example below.) You can also skip individual assignments as discussed on page 44.

#	Unit Title	Skipped	Start	Complete	Progress	Score
+ 1	THE ORIGINS OF U.S. INVOLVEMENT	<input type="checkbox"/>	2/20/2012		100%	90.6
+ 2	FROM MILITARY ADVISORS TO COME	<input type="checkbox"/>	2/21/2012		13%	97.5
+ 3	A NATION DIVIDED BY WAR	<input type="checkbox"/>			0%	0
+ 4	ACHIEVING PEACE WITH HONOR	<input type="checkbox"/>			0%	0
+ 5	THE LEGACY OF VIETNAM	<input type="checkbox"/>			0%	0
+ 6	COURSE REVIEW AND EXAM	<input type="checkbox"/>			0%	0

Click the **+** beside any unit title to expand the unit and see all assignments in that unit. At this level you see additional information:

- Assignment **Type**
- Assignment **Status**
- **Blocked** indicator
- **Due** date for the assignment
- Number of times the student has tried to successfully complete the assignment (**Attempts**)
- Assignment **Score**

At this **Assignment** level, you see:

- **Assignment Type** – options included: lesson, project, quiz or test
- **Assignment Title**
- **Status** – these are automatically assigned by the system. You and your teachers can change them as necessary to meet your needs. Options include:
 - **Not Started** – status given to all assignments the student has in queue to work on
 - **Assigned** – status for currently assigned work
 - **Skipped** – status for assignments you or the application chose not to assign to the student. If you want to assign a skipped assignment, you must first change the status to “Not Started”, and then change it to “Assigned”.
 - **Completed** – status given to assignments the student has submitted as finished, but having teacher-graded problems. Once you or the teacher completes all grading tasks for the assignment, the status is automatically changed to **Graded**. If you want the student to redo the assignment, you can change the status to “Assigned”.
 - **Graded** - status for all assignments submitted by the student as complete having no teacher graded problems. If you want the student to redo the assignment, you can change the status to “Assigned”.
- **Blocked** – if this box has a checkmark, the assignment is blocked, preventing the student from continuing in this subject until you or the teacher removes the block. Click the box to remove the checkmark to unblock the assignment. Alternately, if you want to block an assignment, not currently blocked, click the box to add the checkmark.

NOTE: If you block an already posted assignment, the student CANNOT view the completed, posted assignment, but CAN move forward to future assignments in the course.
- **Due Date** – shows the date the assignment should be completed by the student
- **Started Date** – shows the date the assignment was started, if appropriate
- **Completed Date** – Once the assignment has been fully completed
- **Attempt** – counter showing the number of times the student tried to successfully complete the assignment. If the student has reached the maximum number of attempts allowed, you see “max” after the number, for example 3/max.
- **Score** – percentage score the student has achieved on the most current attempt on the assignment

To collapse the assignment and/or unit views, returning to the student list, click the  to the left of the unit title or student name.

Alternately, you can choose to view the list by student, where you see each student's name with the list of courses they are enrolled in below. Click the circle beside **View by student**. When you choose to view by student you have the same options detailed above (**View by Course**), it just displays information under either the selected student or each student in a course. For example, on the next page is a picture of what you see if you select a single student:

In all views, the course can be expanded to display the unit and assignment views.

Now, let's take a look at the **Action Required** tab.

Action Required

As an administrator, you should not see anything on this page, unless you also teach a course and have students assigned to you. Below is an example of what teachers can expect to see.

Just as on many other pages in the application, you can filter the list by typing into the textboxes below the column headings (**Student, Subject, Course, Unit, or Assignment**). After a few letters are entered, a list of options appears. You can continue typing to filter further or select one of the displayed items.

Grading		Action Required

Page 1 of 1 10 View 1 - 8 of 8

There are four types of actions you see listed on this page, “Manual Grading” tasks, “Help Requests”, “Blocked/Failed Attempt” and a request to “Unlock” a quiz or test. These are the same items you see in the **Actions** block on your **Home** page. Once you select **Mark Read** for a “Blocked/Failed Attempt” item, it is removed from the **Actions** block on your **Home** page.

Unlock Quiz or Test Feature

If you are sure you want to unlock the quiz or test for the student, click the link in the **Actions** block on your **Home** page to immediately unlock it. If you want to view the quiz or test before unlocking it, click **View Lesson** from this page first, then go to your **Home** page to unlock it.

Tasks can be filtered by selecting **Read** or **Unread** items. The default is to display **Unread** items. You can filter the list of displayed items by typing the first few letters of the student name, subject, course, unit title, or assignment title into the textbox just below the column heading. You can click your choice from the list as soon as it appears.

The box in the far left column is a selection checkbox. If you want to mark an item or group of items on the Unread list as read, click the checkbox beside each item to change, and then click the **Mark Read** button. You can use this same functionality to mark read items as unread.

The **Actions** column on the far right-hand side of the page provides a link, **View Lesson** directly into the first question in the assignment. You can then click through the questions in each section, either by clicking the individual question number buttons or by clicking the **Next** and **Previous** buttons. If there are multiple sections in the lesson, click **Next Section** to move to the next section. To go back to a previous section, click the section tab.

To see the lesson material, click **Show Lesson**. The question appears at the bottom of the lesson. Once you click **Show Lesson**, it toggles to read **Hide Lesson**. Click this to return to viewing only the questions. There is an asterisk beside the question number you need to grade, like this: 6*. You can also Reassign the assignment or Skip the assignment for the student from here.

Section 1

Previous 1 2 3 4 5 6 7 8 9* Next

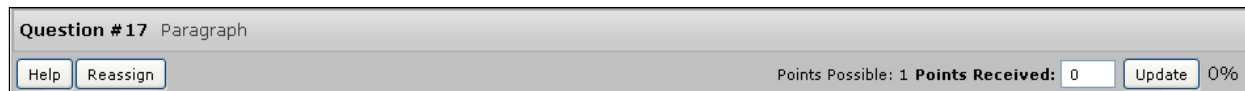

The screenshot shows the OdysseyWare interface for grading a question. At the top, there is a 'Go To' menu (callout 3) with options like Previous, Home, Assignment Alerts, Students, Course Enrollment, Gradebook, and Action Required. Below this, the student information and course details are shown. The question being graded is 'Question #6 Paragraph'. The 'Points Received' is currently 7 out of 10 possible points (70%). Callout 1 points to the 'Update' button next to the 'Points Received' box. Callout 2 points to the 'Points Received' input field. Callout 3 points to the 'Go To' menu. Other callouts include an asterisk, a hash symbol, and an ampersand.

To grade the question:

1. Enter the number of points out of the total possible in the **Points Received:** box
2. Click the **Update** button to the right of the **Points Received** box to save the points and score the question. To see the updated score reflected for the entire assignment, you must refresh your screen.
3. Click the **Go To** button at the top of the screen and select where you want to go.

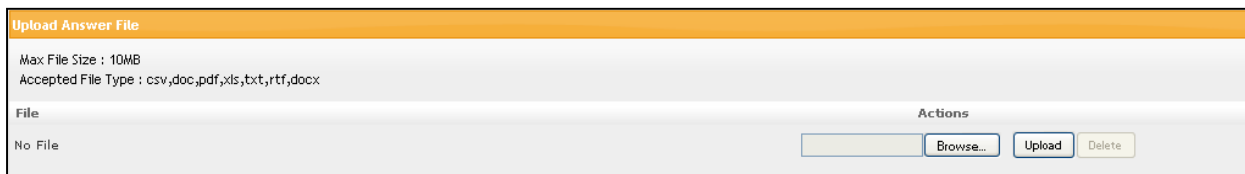

To change an existing score, do the same thing. (The assignment status must be either “Completed” or “Graded” to change a score)

1. Just type over the number of points in the **Points Received:** box
2. Click **Update**. The percentage beside the **Update** button automatically changes as do the assignment, unit, and course grades.
3. Click the **Go To** button at the top of the screen and select where you want to go.

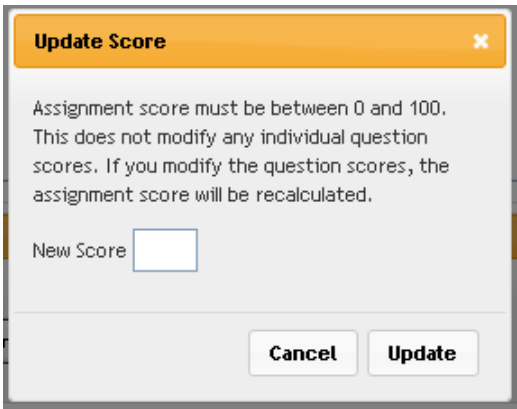

The screenshot shows the 'Question #17 Paragraph' interface. The 'Points Received' box is set to 0, and the 'Update' button is visible next to it. The percentage shown is 0%.

If the student created a file containing the answer to the problem, click the **Browse** button in the **Upload Answer File** section and select the file.

The screenshot shows the 'Upload Answer File' section. It includes a 'File' input field with 'No File' selected. Below the input field are 'Browse...', 'Upload', and 'Delete' buttons.

<p># - The Update button, on the top assignment score bar, allows you to change the score for the entire assignment without changing individual question scores. Click the button to open the Update Score window. Enter the new Score and click Update. The score you just gave the assignment appears as the assignment score.</p>	
<p>* The Attempts counter lets you know how many times the student has attempted to complete this lesson successfully. The student sees the same counter.</p>	
<p>& - Use these buttons to Assign or Skip the question</p>	

Courses

Let's take a look at what you see when you click the **Courses** tab. First, you notice three sub-tabs on the left side of the page, **Courses**, **Custom Courses**, and **Custom Projects**.

Below these sub-tabs you see the **Courses** list (**Courses** sub-tab page). This initial display shows you only the standard ODYSSEYWARE course listing. To the right-hand side of this page you see a series of buttons. The first four, **All**, **All Standard**, **Custom**, and **My Custom** are filter buttons.

Once your school has created multiple custom courses, it may be simpler to view a subset of all of the available courses. Use these buttons to filter what is displayed. The last button on the far right, **Create Course** enables you to create your own custom course. We'll look at that functionality shortly.

There are two different types of courses available in ODYSSEYWARE, Standard courses and Custom courses. Standard courses are the default courses you automatically get with you purchase ODYSSEYWARE. Custom courses are those you create, either by recombining assignments from existing standard courses, by creating custom projects and developing a course based only on those, or some combination of pulling in existing assignments and adding custom projects. We will discuss how this is done beginning on page 51.

The grid course listing displays these headings; **Subject**, **Course**, **Edition**, **Author**, **Enrollable**, **Edit Permissions**, and **Actions**.

Subject	Course	Edition	Author	Enrollable	Edit Permissions	Actions
---------	--------	---------	--------	------------	------------------	---------

Subject – Math, Science, Elective, etc.

Course – Name of the actual course in the subject, Physical Fitness, Science 700, Advanced Placement Calculus, etc.

Edition – Year the course was created

Author – If this is a standard course, you see N/A. If this is a custom course, you see either admin, admin or the name of the teacher who created the course.

Enrollable – if this course is ready to have student enrolled, a green checkmark appears in the box in this column.

Edit Permissions – one of three choices displays;

Read-only – box is grayed-out, as these are standard courses

Admin-only – a custom course that only the admin can edit. The drop-down box is enabled so it can be edited.

Admin-teachers – a custom course that the admin and all teachers can edit. Again, the drop-down box is enabled so this can be edited.

Actions – contains links to actions available for this course. Possible choices include:

Preview – applies to all courses. Click this to open the course and preview the contents, including a list of the units in the course, the list of assignments in each unit. You can also click an assignment to open it and view the presentation and questions in preview mode.

Copy – enables you to make a copy of a course

The above 2 actions are the only ones available for standard courses. Custom courses offer two additional actions:

Edit – permits you to open the custom course and make edits to it.

Delete – allows you to delete a custom course.

Courses							view: All All Standard Custom My Custom Create Course
Subject	Course	Edition	Author	Enrollable	Edit Permissions	Actions	
Elective	Technology and Research	2011	N/A	<input checked="" type="checkbox"/>	Admin-only	Preview Copy	
Elective	Trigonometry	2011	N/A	<input checked="" type="checkbox"/>	Admin-only	Preview Copy	
Elective	Twentieth Century American H	2011	N/A	<input checked="" type="checkbox"/>	Admin-only	Preview Copy	
Elective	Vietnam Era	2011	N/A	<input checked="" type="checkbox"/>	Admin-only	Preview Copy	
Elective	World Geography	2011	N/A	<input checked="" type="checkbox"/>	Admin-only	Preview Copy	
English Language	English I	2011	N/A	<input checked="" type="checkbox"/>	Admin-only	Preview Copy	

Notice the small arrow beside the **Subject** column heading? This tells you the list is sorted by that column and since the darker arrow head faces up, I know it is in ascending order. If the lower arrow head was darker, more prominent, I would know the list was sorted in descending order. Click once to change the sort order. This list can also be sorted by **Course**. Simply click the **Course** column heading once to sort it in ascending order, click it a second time to change to descending order.

At the bottom of the page you see the page number information:

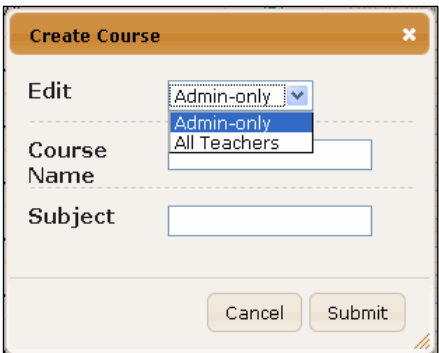

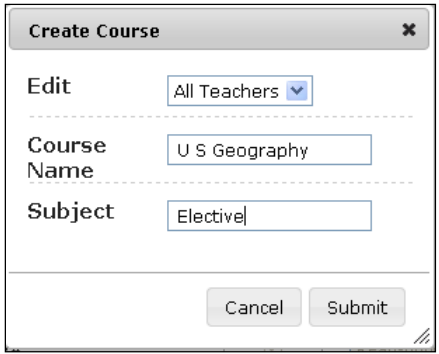

Page of 4 25 View 26 - 50 of 96

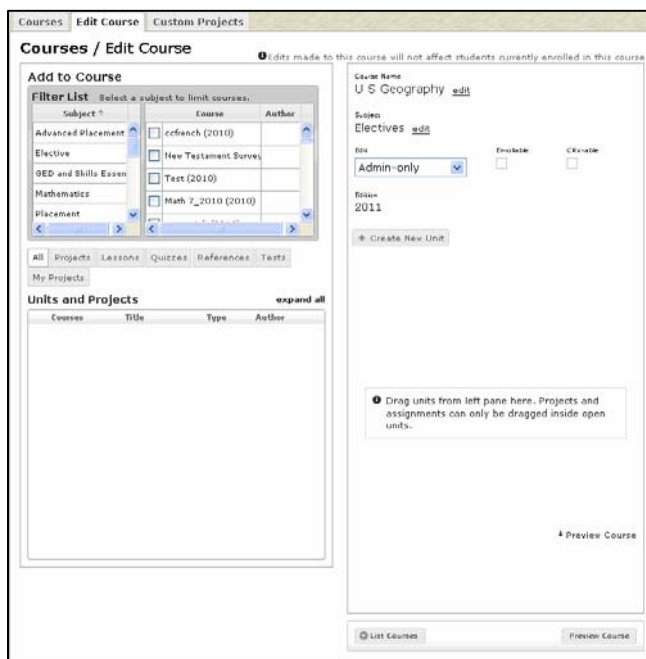

You can use the drop-down arrow to increase the number of items displayed per page. Choices include 25, 50, or 75 for this page. To the far right you see which items are being displayed out of the total items available.

Custom Course / Create Course

You can create a custom course by clicking the **Custom Courses** sub-tab or the **Create Course** button on the far right at the top of the grid. Clicking either one opens the **Create Course** window.

<p>Use the Edit drop-down menu to select who can edit this course, Admin-only or All Teachers.</p>	
<p>Type the Course Name in the associated textbox.</p>	
<p>Type the Subject in the associated textbox.</p>	
<p>Click the Submit button to save the information or the Cancel button to return to the Courses page, discarding any entries you have made on this window.</p>	
<p>Once you have entered the course identifier information, you see the Edit Course page. (Notice the “Custom Course” sub-tab is now the “Edit Course” sub-tab.) This is where you drag units and/or assignments from existing courses into the custom course you want to create. (See example below.)</p>	

Let's take a look at every section of this page, beginning with the left column, **Add to Course**.

Notice the row immediately below "Add to Course". This series of buttons allows you to filter the display in the bottom panel (**Units and Projects**) by assignment type. Select the type of assignment you want to drag into your custom course by clicking the button.

To further narrow your choices, click one or more courses displayed in the **Course** panel to the right of the **Subject** column.

All of the units for the selected subjects and courses display, along with any custom projects you have created in those subjects in the **Units and Projects** panel.

Once you click a subject or course in the **Filter List**, the units and custom projects display. Click **expand all** on the right side of Units and Projects to open all units and display the assignment titles. You can also the arrow to the left of each unit to display only one unit at a time.

Units and Projects expand all

Courses	Title	Type	Author

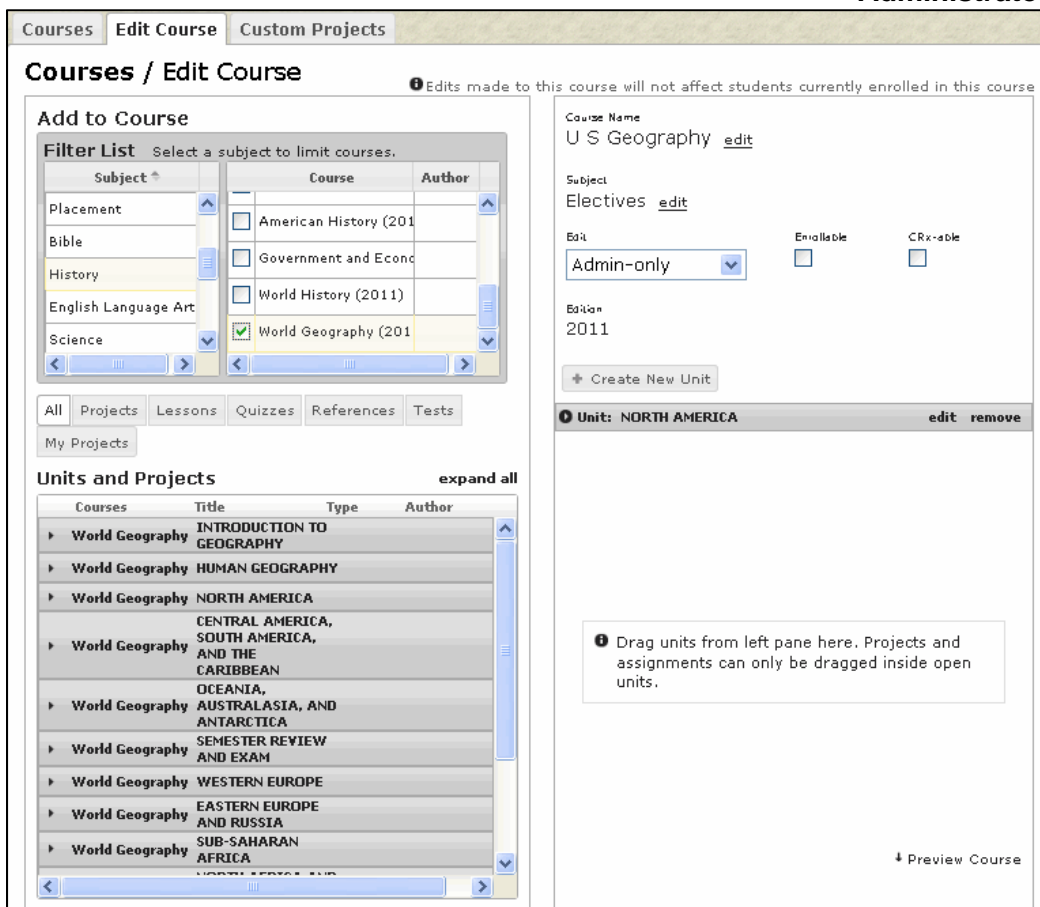

Units and Projects expand all

Courses	Title	Type	Author
▶ 20th Century American History	COMING OF AGE		N/A

Once you have populated the **Units and Projects** section with units and assignments you want to use in your custom course, you are ready to begin creating the course. You use the course information in the left column to create your custom course in the right column.

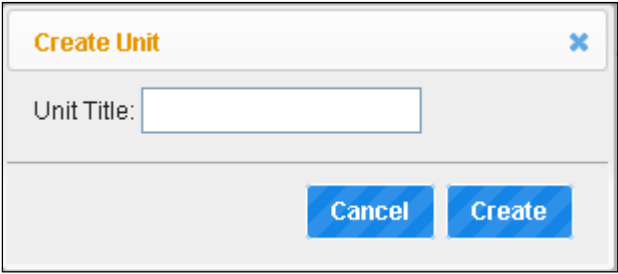

If you want to use an entire unit, simply click the unit you want to use and holding your mouse button down, drag it from the **Units and Projects** panel to the right side of the screen, below the **Create New Unit** button.

I just moved the unit “North America” from the **Units and Projects** panel in the left column over to my new custom course, U S Geography in the right column. To use individual assignments from a unit, you must first decide what unit the assignments will be in. All assignments **MUST** be in a unit. If you want to drag an assignment into an existing unit, be sure the unit on the right side is expanded as well as the unit folder in the **Units and Projects** panel and drag the individual assignment as you did the entire unit.

If you want to put the assignment into a new unit, you must first create the unit. To do this:

<p>Click the Create New Unit button</p> 	
<p>Enter the name of the unit in the Unit Title textbox.</p>	
<p>Click Create.</p>	

I created a new unit, “Geographic Tools” and moved two assignments into that unit, by clicking and dragging them from the **Units and Projects** panel into my new unit. I then decided to make the new unit the first unit in the course, so I drug it above the unit, “North America” that was in that position.

The screenshot shows a course management interface. At the top, there is a '+ Create New Unit' button. Below it, a unit named 'Geographic Tools' is listed with 'edit' and 'remove' links. Underneath, there is a '+ Create New Project' button. Two lessons are listed: 'Geographic Tools: Globes and Maps' and 'Geographic Tools: Graphs, Charts, and More', each with 'preview' and 'remove' links. At the bottom, a unit named 'NORTH AMERICA' is listed with 'edit' and 'remove' links.

I can drag custom projects in the same way I did the individual assignments. Just remember all assignments can only be placed in an open unit, even custom projects.

Once you have added all of the units and assignments to the custom course, you can rearrange assignments within a unit by clicking and dragging them. You can also move units into a different order in the same way.

Click **edit** beside a unit name to change the title of the unit. Click **remove** beside a unit or assignment if you decide you want to remove that unit or assignment.

Before you finish, you have the option of previewing either an individual assignment or the entire course. To preview an individual assignment, click the **preview** link beside the assignment title you want to preview. To preview an entire course, click the **Preview Course** at the bottom of the right hand column.

If you are ready to make the course available for enrollment, click the checkbox below **Enrollable** at the top of the right column

If you want to be able to assign this course in CRx mode, click the checkbox below **CRx-able**.

The screenshot shows a course configuration form. It includes fields for 'Course Name' (U S Geography) and 'Subject' (Electives), both with 'edit' links. Below these is an 'Edit' dropdown menu set to 'Admin/Teachers'. At the bottom, there are two checkboxes: 'Enrollable' and 'CRx-able', both of which are currently unchecked. A red box highlights these two checkboxes.

NOTE: If you want to make the course **CRx-able**, be sure to check the **Enrollable** box first!

Click either the **Courses** sub-tab or the **List Courses** button () to return to the **Course** page.

Custom Projects

Let's take a look at the **Custom Projects** page. This is what you see the first time you open it.

The four buttons below the sub-tabs are:

- **My Projects** – displays a list of the projects you created
- **All Projects** – displays a list of all custom projects created by the admin and teachers in your school
- **Archived Projects** – displays a list of any projects you or another admin or teacher in your school moved to the archive status
- **Create Project** – click here to start working on a new custom project\

Below these buttons is the area where you will see the project list you selected using the buttons. The three columns in this list are the **Project Title** (the list is sorted ascending by this column as a default. You can rearrange the list by clicking either the up/down arrow to the right of the column heading or by clicking “Author”). The second column is **Author**. This tells you who created the project. **Actions** is the last column. Your choices here are:

- **Preview** – allows you to see the project the way your student will see it (along with the options you selected for status, title, edit permission and possible points). When you view the project in preview mode, a button appears in the top banner of the page so you can close the project and return to the **Custom Projects** page,

- **Edit** – permits you to make changes to the project. Once you upload a file and save the project, you can update or remove the file in edit mode using the **[Update]** **[Remove]** on the **Project File** line.

- **Copy** – enables you to make an exact copy of the project. This is handy when you need to create similar projects... saves some typing!
- **Archive** – lets you change the status of the project with a single click.

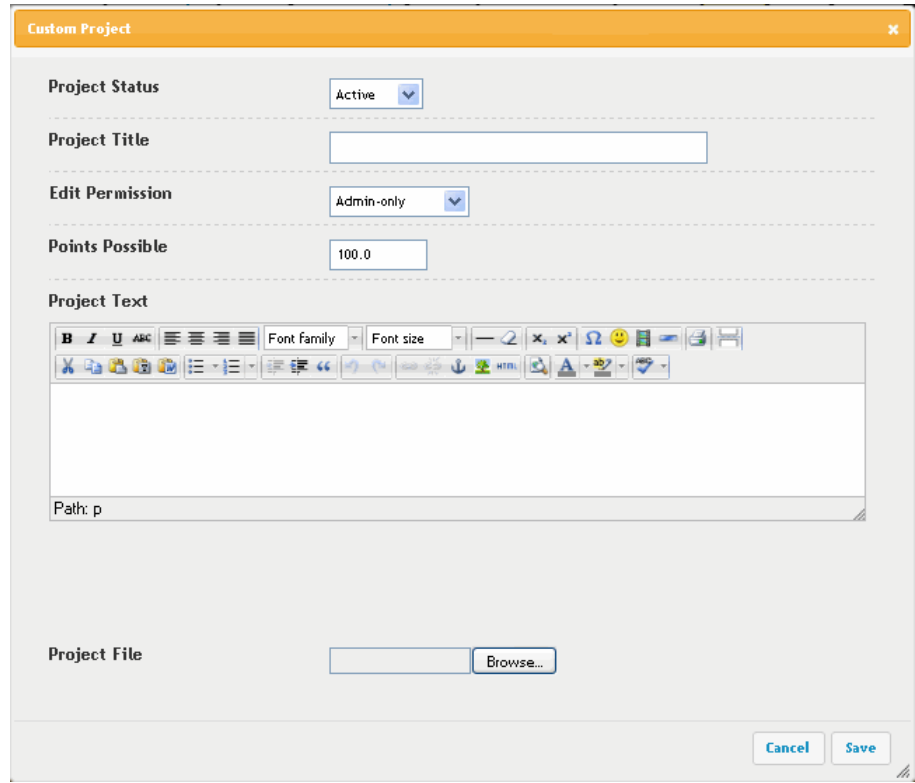

Let's start by clicking **Create Project**.

Project Status: **Active** (default) or **Archived** – Use the drop-down menu to choose.

Project Title: Type the title you want to give this project into the textbox.

Edit Permission: Use this drop-down menu to select who can edit this project, **All Admin** or **All Teachers**

Points Possible: Enter the number of points available for the student to earn on this project. 100 is the default.

Project Text: Enter student instructions for the project in the white space below the format bar. This is what the student sees when they open the project. There are a number of formatting options available to you as you enter the instructions for this project. See the chart below for further explanation of the options available. You can also copy a URL into this box, if you wish.

Project File: If you prefer to use a template or already have a file with project instructions, click the **Browse...** button to locate, select and upload the file to the system.

If you choose to upload a file, you might want to put an instruction into the **Project Text** area advising the student to be sure to click the **Download Project Details** button, which will appear above the **Project Text** area if you use a file.

You can have your student upload a file to complete the project.

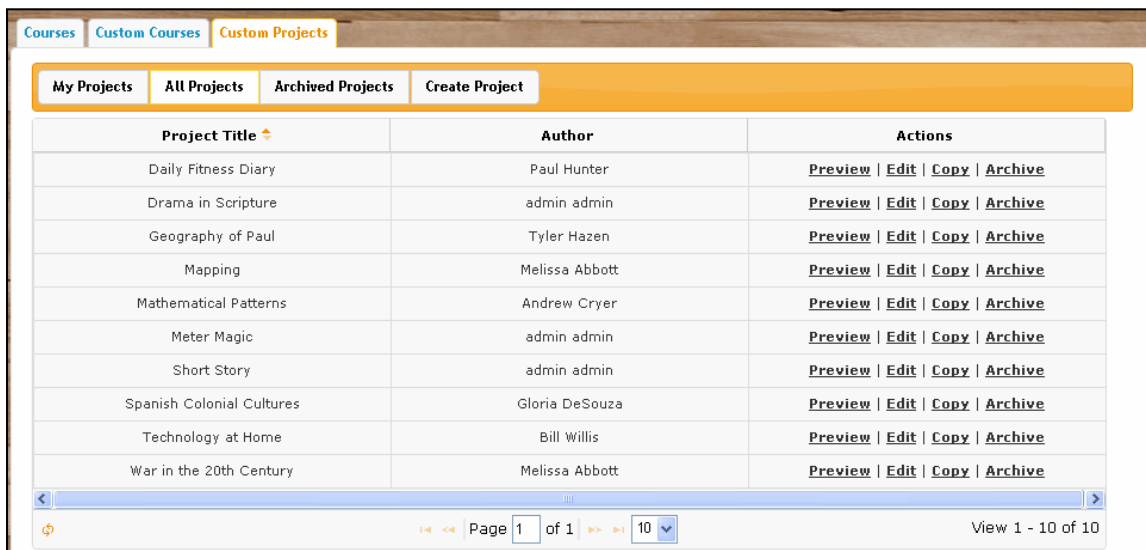

Click **Save** to retain your work or **Cancel** to return to the **Custom Projects** page discarding the work.

Text Format Options

ICON	ICON DESCRIPTION
	Bolds highlighted text
	Italicizes highlighted text
	Underlines highlighted text

	Select color for highlighted text
	Select a background color
	Spell Checker

Once you have created a custom project they appear in the grid on the **Custom Projects** page. The default display is **My Projects**. If you want to see every project created in your school's installation, click **All Projects**.

The screenshot shows the 'Custom Projects' page with a navigation bar at the top containing 'Courses', 'Custom Courses', and 'Custom Projects'. Below this is a sub-navigation bar with 'My Projects', 'All Projects', 'Archived Projects', and 'Create Project'. The main content is a table with the following data:

Project Title	Author	Actions
Daily Fitness Diary	Paul Hunter	Preview Edit Copy Archive
Drama in Scripture	admin admin	Preview Edit Copy Archive
Geography of Paul	Tyler Hazen	Preview Edit Copy Archive
Mapping	Melissa Abbott	Preview Edit Copy Archive
Mathematical Patterns	Andrew Cryer	Preview Edit Copy Archive
Meter Magic	admin admin	Preview Edit Copy Archive
Short Story	admin admin	Preview Edit Copy Archive
Spanish Colonial Cultures	Gloria DeSouza	Preview Edit Copy Archive
Technology at Home	Bill Willis	Preview Edit Copy Archive
War in the 20th Century	Melissa Abbott	Preview Edit Copy Archive

At the bottom of the table, there is a pagination control showing 'Page 1 of 1' and a dropdown menu set to '10'. The text 'View 1 - 10 of 10' is also visible.

Reports

ODYSSEYWARE provides a variety of reports to help you manage and track student activity and progress. (See examples of reports in **Appendix A** beginning on page 65.)

- **Course Percentage Complete** – Enables you to quickly track how far along a student is in one or more assigned courses.
- **Detailed Student Grading** - Shows you current grade information for the student at a unit level.
- **Faculty Progress** – Displays outstanding alert items for each faculty member selected.
- **Login/Logout Report** – Provides a list of selected users, their login and logout times, and the duration of each session, for each day during the selected date range.
- **Student Activity Daily Breakdown** – Lists the amount of time students worked on each course by day, along with the total time spent in all selected courses.
- **Student Activity Summary** – shows the total amount of time selected students spent in each course for the date range or selected term, along with the total time spent in all courses.
- **Student Lesson Plan**– provides a breakdown of all assignment(s) for each selected course for a student. Report lists the course, teacher assigned, assignment title, unit, status of assignment due date and completed date if appropriate.
- **Student Unit Grades** – displays the score for each unit by selected course for each student selected. (You have the option to select completed units only. Completed means all assignments (including projects) have been submitted and all items requiring teacher-grading have been scored.) Also displays the course score to date.

Student Activity Daily Breakdown

Student Activity Summary

Student Lesson Plan

Student Unit Grades

Create a Report

Follow these simple instructions:

1. Choose desired report from the menu on the left.
2. Select what you would like your report to cover.
3. Select a format for your report
4. That's it.

Report Type	Report Description
Course Percentage Complete	Tracks student progress in each course
Detailed Student Grading	Current unit level grading information
Faculty Progress	Teacher's daily to-do list
Login/Logout Times	See how much time users spend online
Student Activity Daily Breakdown	Detailed daily student activity log
Student Activity Summary	Calculates time students spend on each course
Student Lesson Plan	Sums up daily student assignments
Student Unit Grades	Student grading information per unit

All reports, except the **Faculty Progress** and **Login/Logout Reports** require you to select the following information:

Time Period: You can select any **Term**, or **Start** and **End Dates** you wish to use.

Users: There are several ways you can select the people to include on the report. You can sort by **Name, Username, Student ID, Campus, or Status.**

Enrollments: Click the **Show/Refresh** button to display all courses for the selected users. Select any **Course, Edition, Student, Teacher, Status, or Reason**

Report Format: Use the drop-down menu to select:

- Web- opens a new browser window to display a formatted printable report
- CSV – comma separated file, use Excel or another spreadsheet application to most easily display the data
- PDF – formats a printable report in the same browser window as the application. Be sure to use the **Back** button or arrow on your browser to return to the application. Click **OK** to resend the data when prompted.

Messages

ODYSSEYWARE provides an internal messaging system that you control. You decide if the students and teachers can use it (school level) and if so, which students can send and or receive messages using it (student level).

When you click the **Messages** tab, your **Inbox** automatically displays. Notice across the top row there are several drop-down menus and buttons.

Let's briefly walk through each.

- **Inbox** – click this drop-down menu to display your **Sent items** or **Archive** items.
- **All Messages** – clicking this drop-down menu allows you to filter your Inbox to display only messages you have already read or ones you have not read yet.
- **New Message** – click this button to open a new message screen
- **Mark as Read** – click the box in the far right column of a row with an unread message and click this button to mark it as read.
- **Mark as Unread** – click the box in the far right column of a row with a message you have read and click this button to mark it as unread.
- **Archive** – click the box in the far right column of a row with a message and click this button to move the message out of your inbox and into the archive folder.

Inbox

Each message appears in a row of your **Inbox**. (See example on the next page.) To simply read the message, double-click the row containing the above information. Unread messages display in bolded text. Each row offers information about the message. Moving from left to right the columns include:

- **Selection column** – click the checkbox to select the message. Use this column to quickly perform the same action to multiple messages, for example, move several messages to the archive folder.
- **Date**: the date the message was received (Notice the arrowheads to the right of Date? This indicates you can sort your inbox in ascending or descending order based on the date the message was received.)
- **From**: Tells you who sent the message.
- **Subject**: Title of the message sent
- **Preview**: Gives you the first few words of the message.
- **Actions**: Click one of the three links, **Reply**, **Forward**, or **Archive** to handle the message.

Messages

Please double click a row to view message

Archived

Just as with the **Inbox**, each message is on a separate row. The columns are the same, the two differences are:

1. The last link in the **Actions** column allows you to move the message back to the **Inbox**
2. The **Move to Archive** button is now **Move to Inbox**.

Sent

Again, as with the **Inbox**, each message appears on a separate row. The columns are the same. There are a few differences:

1. The only link in the **Actions** column allows you to forward the message to someone else within the system.
2. **New Message** is the only button available.

Help Request Messages

Messages sent by students from within an assignment have “Help Needed” in the **Subject** and give you a link in the **Actions** column to go directly to the problem in the assignment. These messages also appear in **New Messages** on your **Home** page, the **Help Messages** section of the **Actions** area on your **Home** page, and on the **Action Required** tab of your **Gradebook**, where the **Type** column says “Help Requested”.
